4.* Special —The following gracious message from His Imperial Majesty the King-Emperor is published for the information of the Army in India :—

BUCKINGHAM PALACE,

23rd December 1915.

Another Christmas finds all the resources of the Empire still engaged in war and I desire to convey, on my own behalf and on behalf of the Queen, a heartfelt Christmas greeting and our good wishes for the New Year to all who, on sea and land, are upholding the honour of the British name.

In the officers and men of my Navy, on which the security of the Empire depends, I repose in common with all my subjects, a trust that is absolute.

On the officers and men of my Armies, whether now in France, in the East or in other fields, I rely with an equal faith of confidence that their devotion, their valour and their self-sacrifice will, under God's guidance, lead to victory and an honourable peace.

There are many of their comrades now, alas, in hospital and to these brave men also I desire, with the Queen, to express our deep gratitude and our earnest prayers for their recovery.

Officers and men of the Navy and of the Army, another year is drawing to a close, as it began, in toil, bloodshed and suffering, but I rejoice to know that the goal to which you are striving draws nearer into sight.

May God bless you and all your undertakings.

2. Instructions have been issued for the publication of this message, on this date (the 25th) in all orders throughout the Army in India.

J. M. WALTER, *Major-General,*
Adjutant General in India.

1. The first part of the paper is devoted to a discussion of the
 2. various methods of determining the rate of reaction. It is shown
 3. that the most reliable method is the one which involves the
 4. measurement of the concentration of the reactants at various
 5. times. This method is applicable to all reactions, but it is
 6. particularly useful in the case of reactions which are slow
 7. and in which the concentration of the reactants can be
 8. measured accurately. The other methods, such as the
 9. measurement of the volume of gas evolved or the change in
 10. color, are only applicable to certain types of reactions.

4.* Special.—The following, gracious message from His Imperial Majesty the King-Emperor is published for the information of the Army in India:—

BUCKINGHAM PALACE,

23rd December 1915.

Another Christmas finds all the resources of the Empire still engaged in war and I desire to convey, on my own behalf and on behalf of the Queen, a heartfelt Christmas greeting and our good wishes for the New Year to all who, on sea and land, are upholding the honour of the British name.

In the officers and men of my Navy, on which the security of the Empire depends, I repose in common with all my subjects, a trust that is absolute.

On the officers and men of my Armies, whether now in France, in the East or in other fields, I rely with an equal faith of confidence that their devotion, their valour and their self-sacrifice will, under God's guidance, lead to victory and an honourable peace.

There are many of their comrades now, alas, in hospital and to these brave men also I desire, with the Queen, to express our deep gratitude and our earnest prayers for their recovery.

Officers and men of the Navy and of the Army, another year is drawing to a close, as it began, in toil, bloodshed and suffering, but I rejoice to know that the goal to which you are striving draws nearer into sight.

May God bless you and all your undertakings.

20. Jamal cup—Presentation of a challenge cup for Electrical Engineer companies (Volunteer) in India and Burma—Mr. A. K. A. S. Jamal of Rangoon has been good enough to present a challenge cup to be competed for annually, on the following conditions, by the Volunteer Electrical Engineer companies in India and Burma.

Conditions.

1. The Inspector of Engineers will make arrangements for the conduct of the competition.

2. The following units are eligible to compete:—

Calcutta Port Defence Volunteers (Electrical Engineer Company).

Rangoon Port Defence Volunteers (Electrical Engineer Company).

Madras Artillery Volunteers (Electrical Engineer Company).

Bombay Volunteer Artillery (Electrical Engineer Company).

Karachi Artillery Volunteers (Electrical Engineer Company).

3. The competition will be divided into three parts—

	Marks.
(a) General efficiency	100
(b) Musketry	50
(c) Technical efficiency (by tests)	100

The winning company will be that obtaining the highest aggregate marks.

(a) *General efficiency.*—On the 31st of March of each year the officer commanding the corps of each of the above units will submit to the Inspector of Engineers (through the officer commanding the Local Defence Light section) a nominal roll of all the non-commissioned officers and men of the company showing the rating awarded to each man for that year, viz., Expert, Extra-efficient, Efficient, Non-efficient.

Marks will be awarded to each man as follows :—

				Marks.
Expert	100
Extra-efficient	80
Efficient	40
Non-efficient	Nil.

Non-efficient recruits will be excluded altogether from the calculation, and Non-efficient volunteers who have been absent from the station for more than six calendar months will be excluded.

The total of the marks allotted as above divided by the number of men marked will give the average figure of merit of the company.

(b) *Musketry*.—The nominal roll referred to in paragraph (a) above will also shew the musketry qualifications of each man as 2nd class or 3rd class.

Marks will be allotted to each man as follows :—

				Marks.
2nd class	30
3rd class	20

Those men who do not fire a musketry course during the year will be excluded from the calculation.

For example a company consists of 22 members of whom 10 are second and 10 are third class shots, then

$$\left. \begin{array}{l} 10 \times 30 = 300 \\ 10 \times 20 = 200 \end{array} \right\} = 500$$

as $600 : 500 :: 50 : 41.6 =$ (the allotted figure for the company).

(c) *Technical efficiency*.—A number of test jobs such as starting an engine from cold, changing carbons, etc, will be specified by the Inspector of Engineers. The company will be divided into squads of two men each—(i) Electricians and (ii) engine-drivers.

information that the periods of wear of articles of personal clothing laid down in statement "A" published as an annexure to that order, are not descriptive of the period during which any individual article is expected to last but represent the duration of time which must elapse before a fresh issue of one article can be claimed. *Example*—The "Scale to be kept up" of frocks, khaki drill, is 3 and the period of wear is given as 1 year. This signifies that at the conclusion of 1 year from the receipt by a man of one or more frocks, khaki drill, the man may claim one frock, khaki drill, as a renewal issue.

2. India Army Order No. 582 of 1915 is hereby cancelled.

57. Pay and Allowances.—With reference to India Army Order No 560 of 1915, on the subject of the grant of

Army Department No special allowances to Territorial
H. 158 dated 8th January units serving in India, some doubt
1916 appears to exist, particularly with

regard to temporary soldier clerks, as to the meaning of the term "extra-regimentally employed" used in clause (4) of that order. It is therefore notified for information that the special allowance is admissible to non-commissioned officers and men of Territorial units under the provisions of that clause unless a man is in an appointment which will permit him to be seconded in his unit after three months in that appointment. Temporary soldier clerks are not seconded, *vide* paragraph 674, Army Regulations, India, Volume I.

1916.**59. Pay and Allowances—Separation Allowance.—**

As some doubt appears to exist on the subject of the eligibility of families of British Army reservists for separation allowance when they occupy private quarters in preference to government quarters, it is notified for information that the fact that government quarters are available in a station for

Army Department Nos. H.5926 and H.237, dated 30th June 1915 and 11th January 1916, respectively.

occupation by a family of a British Army reservist recalled to the colours does not affect the grant of separation allowance to such a family if they are not desirous of occupying the quarters available; nor is the grant of the allowance affected if the reservist should be living in private quarters with his family.

60 Pay and Allowances—Separation Allowance —

It has been brought to the notice of the Government of

Army Department No. H.191, dated 9th January 1916.

India that some doubt appears to exist with regard to the admissibility of separation allowance to the

families of ex-soldiers who have been re-enlisted under the provisions of India Army Order No 689 of 1914 for service under the Indian Government. It is therefore notified for information that in the case of British soldiers, including ex-unattached list ranks, who have been so re-enlisted, separation allowance should be granted to their families from the date of separation. The fact that government quarters, though available in a station, are not occupied by a soldier's family for any reason does not affect the claim of such a family to separation allowance

83 Pay and Allowances—Separation Allowance.—As

Army Department letter No. H-542, dated 22nd January 1916.

some doubt appears to exist in regard to the continuance of separation allowance to a family for the period during which the husband is in India on leave on medical certificate from one of the field forces, it is notified for information that such cases should be disposed of in accordance with the provisions of paragraph 10 of Army Order XII of the 11th December 1914 (Army Order No. 12 of 1915), to which attention was drawn in India Army Order No. 65 of 1915. 85. Pensions--British—It is notified for information that soldiers who have completed their period of re-engagement, [including the extra year for which they are liable under Section 87 (1) of the Army Act], can draw pension *plus* pay, only if discharged and re-enlisted.

2. Any soldier who takes his discharge and re-enlists for the duration of the war, and who was in receipt of service or proficiency pay, will retain such pay and will draw pension then earned together with the pay of the rank into which he re-enlists.

3. Such soldiers, will, however, only obtain temporary promotion and will lose their chance of a future career in a higher rank, or of serving after the war.

4. The extra service rendered on temporary re-enlistment will not entitle the soldier to an increased rate of pension.

86. Army Orders—Separation Allowance.—Attention is directed to Army Order II of the 14th December 1915, regarding amendment of Separation Allowance Regulations in respect of transfer of dependants' separation allowance on death of payee.

87. Re-Engagement—Territorial Force.—With reference to India Army Order No. 686 of 1915, it is notified that no amendment is to be made on Army Form W.-3126 which will admit of an Imperial Service man re-engaging for home service only.

Separation Allowance—Time Limit for applications for Separation Allowance for Soldiers' Dependants—In continuation of India Army Order No 266 of 1915, the following rules in regard to the time limit for applications for separation allowance for dependants of British soldiers on the Indian Establishment are notified —

- (1) *Enlistments on and after 1st March 1916* —Every recruit enlisted on and after 1st March 1916 is required to state at the time of enlistment whether or not he claims separation allowance for his dependants. If he then makes no claim and afterwards desires to make one, he may do so through his Commanding Officer within one calendar month of the date of enlistment, *but not later*, except under the circumstances described in paragraph 3 below.
- (2) *Soldiers serving on the 29th February 1916* —In the case of soldiers serving on the 29th February 1916, claims will be considered if an application is received not later than the 31st March 1916, as under —
 - (a) By the Commanding Officer from the soldier if the soldier is serving in India
 - (b) By the Divisional Disbursing Officer from the dependant if the soldier is serving out of India —
 - (c) *If the soldier is serving out of India* —In these cases no payment will be made

until a reference has been made to the soldier.

- (ii) *If the soldier is a prisoner of war.*—In these cases no payment will be made unless and until the soldier notifies his consent to make the necessary allotment
- (iii) *If the soldier has been reported missing or is dead.*—In these cases it will be assumed that the soldier would have agreed to make the necessary allotment, but the continuation period of 30 or 26 weeks will reckon from the date on which a notification of the casualty was first sent to the next-of-kin.

2. With effect from the 1st April, 1916 any claim to separation allowance for a dependant must be initiated by the soldier, except under the circumstances described in paragraph 4 below.

3. If a soldier who has not within one calendar month of enlistment (or on being called up from Army Reserve, Class B) claimed separation allowance for a dependant subsequently desires to make a claim, such claim will not be considered, *except* in cases where it can be shown that at the date of the soldier's enlistment (or joining from Army Reserve, Class B) the person for whom an allowance is subsequently claimed was in receipt of either:—

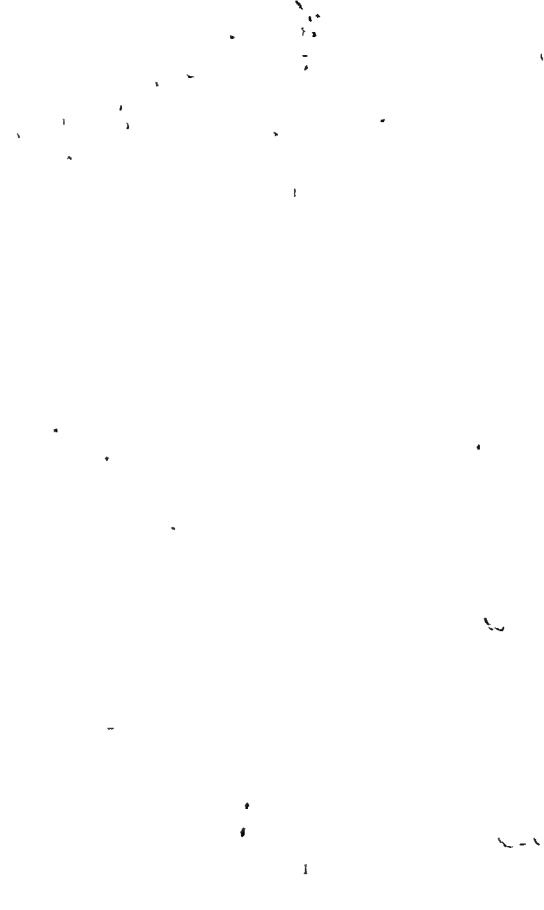

- (a) Separation allowance as the wife of a soldier and was therefore debarred at that time from receiving separation allowance as a dependant in addition ;
or
- (b) an allowance from the soldier's employers which is afterwards withdrawn, either while the soldier is still serving or after his death.

4. If a claim under (a) or (b) of the preceding paragraph is received in respect of a deceased soldier, the Divisional Disbursing Officer will investigate the claim of the dependant and forward all particulars to the Adjutant-General in India, Simla, for the consideration of the Government of India. The date on which the notification of the soldier's death was sent to his next-of-kin should be stated.

5. Commanding Officers will take steps to ensure that the contents of this order are carefully explained to all non-commissioned officers and men under their command and that newly enlisted men are informed, as soon as possible after joining, of the procedure necessary in order to obtain separation allowance for their dependants.

INDIA ARMY ORDER

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.*Simla, the 19th February 1916.*

His Excellency the Commander-in-Chief directs the publication of the following telegram, dated 11th February 1916, from the Right Hon'ble the Secretary of State for India to His Excellency the Viceroy:—

Begins.—The King to day received loyal address from 27 convalescent Indian officers. Text of His Majesty's reply as follows —

"Sirs,—I am glad to receive here in person to day a body of Indian officers who have faithfully borne their share of the present conflict and upheld the honour of my Indian Army on the European battle-field of the world wide war in which my Empire and my Allies are engaged. Wounded as you have been in battle with a formidable Western foe on the neighbouring fields of France, our glorious Ally, and nursed and tended here at the heart of the Empire, you represent the fighting men of your races in presenting a loyal address to your King-Emporor in the capital city of his Dominions. I note that you speak not only for yourselves, but for the whole of my Indian Army. I welcome your presence as a symbol of the unity of the Empire, and as setting a seal on the heretofore efforts and sacrifices in which my Indian soldiers, yourselves amongst them, have borne a common part with all my forces from overseas and from the mother country. I am deeply touched by your declarations of loyalty and gratitude to myself, but not less than by the generous recognition which you pay to the kindness and brotherly feeling which you have met at the hands of all your fellow-subjects, the British and

of these islands. They are conscious as I am that the loyal devotion of India to the common heritage for which we are fighting, a devotion to which we have never looked in vain, has been consecrated afresh by the blood of India's sons shed far from their homes and in a quarrel which, whilst the might of the Empire protects India's shores, does not come near to the lives and fortunes of their kith and kin. But the liberties of the Empire were put into the scale and with them the liberties which India has enjoyed under our rule and which please God she will enjoy in increasing measure as she advances in the path of social improvement and political experience. I welcome the expression of your thanks for the careful and scrupulous regard which all my officers under my directions have paid to the requirements of your religious usages. I honour the concern which you tell me you felt lest the circumstances of your life in a strange country might imperil the due observance of the rites which are sanctified for you by the dictates of your religion and the immemorial customs of your forefathers. I recall to mind the words in which my revered predecessor, the Queen Empress Victoria, declared to her Indian subjects of whatever creed on assuming sway over their lives her will that "none be in anywise favoured, none molested, or disquieted by reason of their religious faith or observances, but that all shall alike enjoy the equal and impartial protection of the law, and We do strictly charge and enjoin all those who may be in authority under Us that they abstain from all interference with the religious belief or worship of any of Our subjects on pain of Our highest displeasure." It will ever be the cherished duty of my Throne and Throne to guard the sacred promise then given in the letter and in the spirit.

Sirdars, I thank you for your loyal address " Ends.

Adjutant-General in India.

4. Commanding officers will instruct their men that the ticket for the return journey will be issued by the booking clerk on presentation of India Army Form T-1720 A, by the individual. As no signing of papers is involved this transaction will occupy no more time than tendering cash for a ticket in the ordinary way.

No excuse of being afraid of missing the train and therefore using the voucher (India Army Form T-1720-A), instead of getting a ticket will be accepted. Men found travelling without tickets will be liable to the ordinary penalties of the travelling public.

If any man finds he has difficulty in getting his return railway ticket he should report the matter to the stationmaster at once.

Railway companies have done much to assist in reducing the clerical labour involved in the old system besides granting sepoys liberal travelling concessions and commanding officers of units are responsible that their men carry out these orders.

5. In the case of men proceeding from Burma and Aden to India, the staff officer at the port of disembarkation will act for the officer commanding unit and obtain the railway tickets and the signed vouchers for the men's onward journey. The particulars and amount of money required for this purpose will be remitted by the officer commanding unit so as to reach the staff officer at the port of disembarkation in sufficient time to get the tickets and vouchers before the arrival of the men.

6. To give effect to the introduction of the revised procedure, revised India Army Forms T-1720 and T-1720 A, will shortly be issued. The former will also be used for the railway journeys of reservists. The present India Army Form T-1720 A (Railway ticket requisition for reservists) has been cancelled and all existing stock of this form should be destroyed.

124. Organisation—Indian Army.—Paragraph (6) of India Army Order No. 361 of 1914, publishing the rules for promotions of Indian ranks of units on field service during the present war, is reconstructed as follows:—

(6) A surplus of Indian officers and non-commissioned officers due to the arrival of a draft or the return to duty of missing or wounded men, will be absorbed into the first vacancy that may occur in the unit concerned. In the case of companies or double companies sent as drafts to battalions with a class composition other than that of the draft, the companies or double companies of which the latter may consist will be kept intact and promotions in such companies or double companies shall not be affected by the absorption of surplus Indian officers and non-commissioned officers in the battalion to which they are attached. Similarly, the absorption of surplus Indian officers and non-commissioned officers in the companies or double companies of the draft will not affect, but be independent of, promotions in the battalion.

245 Religious denomination of a recruit on attestation.—It is notified for information that it has recently come to the knowledge of the Army Council that in certain cases recruiting officers and others when filling up attestation papers of recruits enlisting in the Regular Army on a duration of the war engagement use in the habit asking them to state their religious denominations. It is therefore necessary to point out that on the attestation paper referred to (Army Form No. 505) there is no printed question as to religious denomination on the subject should be addressed to a recruit at the time of his attestation.

248 **Family Allotments—Indian Expeditionary Force "D"**—The following revised system will be observed for the payment of family allotments of British and Indian troops and followers serving in Indian Expeditionary Force "D" (for whom fixed depôts in India have been formed), commencing with the payments due on May 1st (from pay for April).

2 The Officer Commanding the depôt will send a cash requisition to the Divisional Disbursing Officer, Indian Expeditionary Force "D", Poona, for the total amount he will require in the 1st of the following month for the payment of the family allotments of all men serving in Force "D" belonging to, and attached to, his unit from other units. For example, regiment "X" is in Mesopotamia. In addition to receiving reinforcements from its own depôt, it also receives reinforcements from regiments "Y" and "Z". The Officer Commanding depôt, "X" regiment, will apply to the Divisional Disbursing Officer for sufficient cash to pay the allotments of the men of his own regiment as well as the allotments of the attached men of regiments "Y" and "Z" (in communication with the Officer Commanding depôts of the latter units). The principle to be adopted is that the Officer Commanding the depôt of the regiment in field service, to which men of other units are attached, will be responsible for the payment of the family allotments, not only of the men of his own regiment but those of the men attached from other units as well.

3 The requisition should reach the Divisional Disbursing Officer by the 10th of each month. (The first requisition should reach the Divisional Disbursing Officer by 15th April.)

4 To prevent delay, the cheque or remittance transfer receipt will be issued as early as possible by the Divisional Disbursing Officer, but will be made payable on the 1st of the following month. On encashment, the amounts will be distributed by the Officers Commanding depôts to families as at present and debited to the men in the peace acquittance rolls (individual accounts) of the unit, maintained at the depôts. The total amount thus paid will be deducted in a

248

24th April
1916.

lump sum from the total amount due to be paid by the Divisional Disbursing Officer to the Officer Commanding the depot in the accounts of the month concerned

5 All existing family allotment rolls (India Army Form A. 1000) will be considered as cancelled after payments due on April 1st have been made, and the money required for the payment of allotments after that date will only be drawn from the Divisional Disbursing Officer, Indian Expeditionary Force "D", Poona. Any changes in family allotments, and correspondence connected with allotments, should be conducted between the Officer Commanding the unit in the field and depot direct

Cash required for the payment of commission on money orders will be claimed from the Divisional Disbursing Officer, Indian Expeditionary Force "D", on India Army Form A. 115 supported by the money order receipts.

6 The above instructions apply to :—

British Infantry, Cavalry, and Royal Artillery Units and the Royal Flying Corps.	Requisitions for cash should be sent to the Divisional Disbursing Officer, British Troops, Indian Expeditionary Force "D", Poona
--	--

Indian Regiments, including Sappers and Miners Coys., Signal Coys. and Squadron, Field, and Signal Troops, Search Light and Printing and Litho Sections Bridging train and work parties, also Indian Mountain Artillery. --	---

ANNEXURE TO INDIA ARMY ORDER NO. 247 OF 1916.

GENERAL PROVIDENT FUND FOR GOVERNMENT SERVANTS.

Rules 7 and 8.—Substitute the following for the existing rules:—

Rates of subscription.

Rule 7.—The monthly rate of subscription shall be an amount expressed in whole rupees and shall remain fixed throughout the financial year. It may be any sum in whole rupees not less than $6\frac{1}{4}$ per cent. of salary (*i.e.*, one anna in the rupee) and not exceeding $15\frac{1}{2}$ per cent. (*i.e.*, $2\frac{1}{4}$ annas in the rupee) the rate of salary for this purpose being that drawn in respect of the 31st March of the financial year preceding.

The amount which a subscriber elects to subscribe monthly for each financial year shall be assumed to be represented by the deduction which he himself causes to be made in his salary bill for the preceding March: provided that if the sum so deducted is below the minimum or above the maximum limit above prescribed, the subscriber shall be assumed to have elected to subscribe the minimum or the maximum permissible amount, as the case may be.

The amount thus elected shall not be variable later on in the year on account of any increase or decrease in the rate of salary which may ultimately be found to have been due in respect of the 31st March or which may take place during the year.

Note.—Explanations and Exceptions.

(a) *Rounding of minimum percentage.*—If $6\frac{1}{4}$ per cent. of salary represents a sum not expressible in whole rupees, the nearest sum in whole rupees below that amount shall be taken as the minimum limit of subscription. If $6\frac{1}{4}$ per cent. represents a sum of less than one rupee, the minimum limit shall be taken at 8 annas.

(b) *New subscribers.*—In the case of new subscribers, any broken period in the month of entry will be neglected, the first subscription being that due in respect of the first

separate amount being rounded to the nearest higher or lower rupee according as the broken portion does or does not exceed 8 annas

The subscription, if any, payable in respect of a month spent partly on privilege leave and partly on other leave will be similarly calculated in those cases where the officer has notified his intention to subscribe at one rate during privilege leave and at another rate during other leave

Subscription during leave without allowances and in respect of time spent under suspension

Rule 8 A—Subscription during leave without allowances will be optional

An officer on reinstatement after a period passed under suspension may be allowed the option of subscribing for that period

The monthly amount which may be subscribed shall be a
 5 - half the amount
 7 - prior to proceed-
 1 - aced under sus-
 pension as the case may be. In case, however, the officer is allowed full pay or salary for the period of suspension the maximum amount of subscription permissible is the amount which he is subscribing prior to being placed under suspension

In the case of a month spent partly on duty and partly on leave without allowances or under suspension followed by reinstatement, the amount to be subscribed will be calculated proportionately with reference to the duty rate and the leave or suspension rate, in the manner indicated in rule 8, *mutatis mutandis*

Rule 12 (i)—Omit the words 'at 6½ per cent per month of the officer's monthly salary' and insert the following note—

Note—The monthly payment on account of deficiency shall be a sum expressed in whole rupees. For this purpose, the family income made good, the total family income made in a year will be divided (if not itself in whole rupees) will be rounded to the nearest higher or lower rupee according as the broken portion does or does not exceed 8 annas

Rule 12 (iii).—For the words “6½ per cent. of his salary” substitute “the minimum subscription prescribed in rule 7 of these rules.”

Rule 12 (iv).—For the words “of 6½ per cent. and 12½ per cent.” substitute “prescribed in rule 7 of these rules.”

298. Pay and Allowances.—It is notified for information that, with reference to the footnote to paragraph 693, King's Army Department letter No. 33045-2 (A G. 1), dated 20th April 1916, Regulations, drivers of the Royal Artillery who are not qualified for Class I proficiency pay may, during the present war, be granted Class II proficiency pay under the same conditions as soldiers of other arms, i.e., under the provisions of paragraph 402-1, Army Regulations, India, Volume I.

299. Pay and Allowances.—India Army Order 139 of 1916 is cancelled and the following substituted :—

15th May
1916.

It is notified that, with the approval of the Right Hon'ble the Secretary of State for India, the Government of India Army Department letter sanction the grant of the following rates of pay to temporary Army Corps, and temporary Divisional Commanders in the field—

- (i) Temporary Army Corps Commanders—Rs 4,000 per mensem consolidated, with exchange compensation allowance
- (ii) Temporary Divisional Commanders—Rs 3,000 per mensem consolidated, with exchange compensation allowance

2 This decision will have retrospective effect during the present war in the case of temporary Divisional Commanders

300 Pay and Allowances—Credit of Pay to Missing Soldiers subsequently reported dead or whose death is presumed—With reference to Army Order 122 of 1915 and paragraph 2 of India Army Order 241 of 1915 regarding the credit of pay to missing soldiers who are subsequently reported as dead or whose death is subsequently presumed, the following instructions are given on points on which doubt has in some instances been found to exist—

- (1) The general rule is that pay should be credited to the actual date of death where this is definitely ascertained, but that where this date is not known pay can only be credited to a date four weeks after that on which the next of kin was notified that the soldier was missing. The guiding principle is that a man is entitled to pay while he is alive and no longer, where a man is missing he is, for pay purposes, assumed to be dead if he is not heard of for four weeks after the date on which notification of his being missing was sent to his relatives. If actual evidence is forthcoming that he died on a certain date, either earlier or later than the date of expiration of the four weeks pay is admissible to the date on which he is shown to have died. If any pay has already been credited

300

15th May
1916.

to his account beyond that date under the four weeks' rule, it will be recredited to the public. Mere *presumption* that death took place on a certain date is not definite evidence for this purpose. If this guiding principle is borne in mind there should be no difficulty in dealing with cases. The following paragraphs are merely deductions from this guiding principle and illustrative.

- (2) If there is *definite evidence* that the man was alive after the four weeks (although date of death is unknown) pay may be credited up to the date when the soldier was last known to be alive.
- (3) If death is reported as having occurred on a definite date, pay can only be credited up to that date whether the report is made during the currency of the four weeks or subsequently. This rule holds good whether the date of death is before, during or after the period of four weeks, and any adjustment of credits already made should be effected when making up the man's final account.
- (4) If death is reported during the currency of the four weeks but no definite date is given pay should only be credited up to the date of the casualty report.
- (5) When death of a missing soldier is *presumed* for official purposes, pay may be credited for the four weeks after the next of kin was informed that the soldier was missing, but for no longer period, unless of course he was known to be alive at a later date.
- (6) If the soldier reported missing is subsequently reported a prisoner of war his pay is credited as directed in such cases (*vide* paragraph 4 of Army Order 122 of 1915), and, if he is subsequently reported dead, pay is credited up to date of death.
- (7) The rules as to the issue of *allotments* of pay in the case of missing soldiers are stated in the Separation Allowance Regulations and these rules are not of course affected in any way by the foregoing instructions.

The achievement of relief was ~~denied~~ you by floods and bad weather and not by the enemy whom you have resolutely pressed back. ANNEXURE TO INDIA ARMY ORDER NO. 354 OF
1916

ARMY COUNCIL INSTRUCTION

No. 716 of 1916

WAR OFFICE,

5th April 1916.

National Health Insurance—I Soldiers erroneously exempted from the payment of insurance contributions, and II Insurance contributions erroneously omitted to be paid

1 It has been ascertained that in many instances men enlisted for the period of the war or serving in the T F. who were insured persons under the National Insurance Act while civilians and who in consequence must continue to be insured while soldiers (*see* A.O. 375 of 1914), are not being debited with the insurance contributions properly payable in such cases. This may have arisen in the case of men enlisted before 3rd January 1916, either by the men wrongly representing that they were not insured as civilians and therefore entitled to exercise an option to remain uninsured while soldiers or from the men's company officers having omitted to carry out their instructions to stamp insurance cards for all men who are required to be insured as soldiers. Similarly in the case of men enlisted after the 3rd January 1916, cases occur when the men are being treated as not insured, whereas in fact they should be insured.

2 Instead of as heretofore each individual case of omission to stamp cards or of omission to make the necessary deduction being notified by the National Insurance Commissioners as it comes to light, it has been arranged that in future the several Commissions will forward to the Officers Commanding units concerned monthly lists of men whose right to exemption from insurance is open to question.

3 On receipt of these lists, the following procedure will be carried out —

A brief note of the circumstance will be made and attached to the lists and steps will at once be taken, subject to the restriction of the next paragraph (4), to debit provisionally the man's pay account with a sum equal to the amount of insurance contributions (i.e., 1½d. a week) due by him from the date from which pay was first credited, and to recover from him provisionally the weekly contribution in the future.

4. The following rules should be observed with regard to the limitation of the amount which can, under the circumstances given, be deducted from a soldier's pay in respect of insurance contributions due for a past period:—

(a) If at any time the soldier has received a payment in specific settlement of his creditor balance to a particular date or if a debtor balance to any date has actually been recorded in his account, he will be regarded as having been settled with to the date on which the account showed the creditor or debtor balance in question, and no arrears of insurance contributions in respect of any period before that date will be recoverable from him.

(b) No deduction should be made from any allowances, gratuities, etc., or from any sum due to the soldier other than his pay. If that pay is not in credit at the date of the settlement no recovery is to be made. If the amount of pay available is less than the amount of contributions due, deduction should only be made up to the amount of such pay.

5. The insurance contributions recovered from the soldier with the equivalent Government of India's contributions will be credited to the "National Health Insurance Commission" in the ordinary course. The contributions of 3d. a week for the period (including the period, if any, previous to the 3rd January 1916) for which, under the restriction in paragraph 4, recovery cannot be made from the soldier will be charged against the Grant and head affected in the Army Accounts, and credited to the "National Health Insurance Commission" as laid down in Indian Army Order No. 694 of 1915. The charge will be supported by a statement of the circumstances.

6. *Omitted.*

7. (a) If the soldier states that he was so insured, no difficulty arises, as in this case there is no doubt that he is insurable in respect of his army service, and the provisional deductions for insurance can be made permanent forthwith.

(b) If on the other hand the soldier states that he was not insured as a civilian, the provisional deductions from pay should continue to be made until the soldier establishes his claim to exception from insurance. If, whether while service or on return to civil life, the soldier can rebut the contention of the Society, etc., that he is insured, repayment will be made to him by the Divisional Disbursing Officer of all the insurance contributions that have been deducted provisionally from his pay. In cases of repayment a charge will be made under the head "National Health Insurance Commission" for the total amount provisionally credited under that head and the difference between that amount and the portion repaid to the man will be compiled by deduction from the expenditure under the Grant and head to which the Government contribution was originally charged. The charge against the National Health Insurance Commission will be supported by a certificate from the Divisional Disbursing Officer that the circumstances of the case have been reported by him to the Insurance Commissioners.

8 In all cases dealt with under this instruction, except those in which circumstances may admit of the man establishing at once that he should not be insured, a fresh Army Form O-1817 will be despatched to the man's Society or to the Insurance Commissioners as the case may be.

If the man is serving at home, the despatch of the Army Form, completed as far as practicable, will be ensured by his CO after the man has had an opportunity of admitting insurance. If insurance is not admitted, the Army Form will be marked "Provisional". If the man is serving abroad the Army Form will be despatched by the Officer Commanding marked "Provisional".

9 It has been brought to the notice of the Insurance Commissioners that in some cases in which men have properly been treated as insurable for some period of service, cards do not appear to have been stamped for all the contributions due before the 3rd January 1916.

Monthly lists of these cases will also be forwarded to the Officers Commanding units concerned, and the following procedure will be carried out —

The Officer Commanding will ascertain whether deductions were made for the period for which a card does not appear to have been stamped.

If deductions were not made, the man's pay account will be debited with the deductions due for the period in question (subject to the restriction in para. 4), and the contributions due will be credited to the Insurance Commissioners as explained in para. 5.

If it appears that deductions were made but a card was in error not stamped, the contributions of 3d. a week will be credited to the Commissioners, as explained in para. 5, and charged against the grant and head affected.

374. Furlough and Leave—Officers—The Government of India have had under consideration the question regarding the procedure for the grant of leave to those officers of the Indian Army in permanent civil employ who may revert temporarily to military duty for the period of the war. It has been decided that, during the period of the war, in all cases where the grant of leave to such officers may be necessary, the provisions of paragraph 232, Army Regulations, India, Volume II, shall be held in abeyance, but that officers transferred to military duty from permanent civil employment shall continue to remain subject to the Civil Leave Rules.

2. The sanctioning authority for the grant of leave to the officers in question will be the General Officer Commanding the Division, Divisional Area or Independent Brigade, who

will take the necessary steps to notify the grant of the leave in the usual manner and furnish the Civil Audit Officers concerned with a copy of the order.

3. In cases where officers are granted leave out of India the responsibility for the issue of the necessary last pay certificate will rest with the Controller of Military Accounts under whose audit control the officers are serving while employed temporarily on military duty.

Clothing—General—The Government of India sanction, for the period of the present war, the replacement by free issues in kind from the Army Clothing Department, of all articles of clothing and necessities which have become unserviceable or deficient on field service in the kits of all Indian officers, British and Indian soldiers and of such public followers as are in receipt of clothing allowances in peace, who return from service in the field. Such issues will be subject to the condition that the individuals concerned have not been permanently invalidated from the service and that the replacements are not necessitated by neglect on their part or on the part of the corps to which they belong. Deficiencies which may be made good as above, at the expense of the State, will be assessed under regimental arrangements, and the assembly of boards under Army Regulations, India, Volume I, paragraph 324, for this purpose will not be required. The rules in Army Regulations, India, Volume XI, paragraphs 38-C, 38-D. and 38-F., are accordingly temporarily in abeyance.

2. The above orders will have retrospective effect from the commencement of the war, in cases where compensation has already been drawn under the rules which are now to be temporarily in abeyance. In such cases the individuals should be credited with a further sum representing the difference between the total value of the articles at army clothing department rates and the total compensation actually drawn.

3 The free issues of articles of clothing and necessities made under the authority of this order, will be drawn from the Army Clothing Department and from no other source

ANNEXURE TO INDIA ARMY ORDER NO. 395 OF 1916.

Army Council Instruction, No. 884 of 1916.

WAR OFFICE,

27th April, 1916.

884. National Health Insurance. Completion and issue of A.Fs. O.-1847, 1845 and 1844.

With reference to A.O. 332 of 1915 and subsequent instructions on the subject of the completion and issue of soldiers' National Health Insurance cards (A.Fs. O.-1817, 1845 and 1844), representations have been made to the W.O. that in many cases Regimental Paymasters and Company Commanders have not conformed to the instructions mentioned above; the following points in particular on which the regulations have not been observed are therefore brought to the notice of the officers concerned with a view to the prevention of a recrudescence of this trouble.

1. Instances have occurred in which Company Commanders have, in the case of a man attested under the Group System (and passed at once to Class B, Army Reserve), inserted the date of attestation on A.F. O.-1847 instead of the date on which the man joined for continuous service and came on Army pay.

In like manner in the case of men who come within the provisions of the Military Service Act, 1916, the date on which the recruit actually comes on Army pay should be shown on the card (*see* A.C.I. 193 of 1916).

Attention is drawn in this connection to A.O. 25 of 1916.

2. Similar errors have been made in the preparation of A.Fs. O.-1845 (form banded to man on discharge) in Pay Offices. In the case of men enlisted under the Group System the date of attestation has been erroneously shown whilst that of Army Reservists and T.F. soldiers the date of enlistment has been inserted in spite of the note on the card to the effect that in these latter two instances the date of mobilization should be shown.

399. Pay and Allowances—The Government of India

Army Department letter No 14750-1 (M W 1) dated 18th May 1916 have decided that the orders contained in India Army Order No 450 of 1915 empowering General Officers Commanding Divisions, Divisional Areas and Independent Brigades to grant military subordinates who suffer a loss of emoluments on promotion in warrant rank such personal allowances as will compensate them for the loss sustained, shall also apply with effect from the 18th April 1914 to military subordinates of the Military Works Services on promotion in warrant rank.

400

19th June
1916.

400 Pay and Allowances—*Reckoning of unembodied service in the Territorial Force towards time promotion and increase of pay dependent on length of service*—Some misapprehension appears to exist as to how far peace service in the Territorial Force counts towards increase of pay and promotion in cases where such advancement is dependent, under Army Regulations, India, upon length of service

It is therefore notified that service in the Territorial Force before mobilization, which need not have been continuous, counts for promotion when promotion is dependent upon length of service, and in such cases the promotion carries with it the pay of the higher rank. On the other hand, unembodied service in the Territorial Force will not be reckoned towards an increase of pay in a particular rank when such increase depends upon length of service

For example, under paragraph 555, Army Regulations, India, Volume I, unembodied service in the Territorial Force counts towards the periods which qualify for the promotion of an orderly room sergeant to the ranks of colour sergeant and quartermaster sergeant, but not towards the increase in the pay of the quartermaster sergeant after 3 years' service in the rank

WHEREAS We deem it expedient to make Regulations

under the Regimental Debts Act, 1893, to meet the special circumstances of active service.

419

10th June
1916.

OUR WILL AND PLEASURE is that, notwithstanding anything contained in the Regulations made under the Warrant of Her late Majesty Queen Victoria, dated the 30th day of August 1893, as amended by subsequent Warrants, the following Regulations shall have effect until Our further Will and Pleasure is made known:—

1. In the case of active service the Commander-in-Chief of Our Forces in any area of operations may appoint a standing Committee of Adjustment at the Base or other convenient locality within the area of operations to deal with the local affairs of any or all persons dying in or through the campaign while subject to military law, in lieu of any Committee of Adjustment already provided by the Regulations

2. The operations of such a Committee may include any of the duties already imposed upon Committees of Adjustment by the Regulations or may be limited to—

- (a) Securing the effects of the deceased in the said area;
- (b) Ascertaining the amount of preferential charges on the property of the deceased;
- (c) Paying the preferential charges or local debts as far as practicable out of any cash belonging to the deceased's estate;
- (d) Transmitting any balance of cash to the Paymaster;
- (e) Transmitting any articles of personal property for custody to such place as the Secretary of State may approve or direct;
- (f) Rendering a report to the Secretary of State through the Paymaster showing what action has been taken by them and what preferential charges or debts known to them have been paid or left unpaid, with a view to payment being made or secured if necessary.

4 The power of appointing a standing Committee given by these Regulations shall not affect the power of appointing Committees of Adjustment in accordance with the former Regulations where thought fit.

5 Any standing Committee appointed under these Regulations may at any time be dissolved by the Commander-in-Chief and the nature of its operations may from time to time be altered or defined by him.

6 The former Regulation shall apply to any standing Committee of Adjustment appointed under these Regulations save in so far as may be inconsistent with these Regulations.

7 Where within the area of operations any person subject to military law deserts or is found in the prescribed manner to be insane these Regulations shall apply in the same manner as if he had died in or through the campaign at the time of his desertion or insanity, as the case may be.

Subsidiary Instructions to the Royal Warrant, to meet the requirements of India

With regard to paragraph 2 —

(d) Any balance of cash of the deceased's estate will be transmitted to the Field Disbursing Officer.

19th June
1916.

- (e) As regards any articles of personal property of sentimental value (as determined by the Committee of Adjustment), the following procedure will be followed :—

(i) In the case of British Troops who have Depôts in India, the articles will be forwarded by the Adjutant General's Office at the Base to the Depôt in India, where they will be placed with other similar property of the deceased soldier on charge of the Officer Commanding the Depôt, and will then be disposed of as directed in paragraph 3 of these subsidiary instructions. (In the case of the next-of-kin, or other person legally entitled to receive the effects, being resident in India, the Officer Commanding the Depôt will forward such property to the person concerned.) Articles which are *not* of sentimental value will be sold on receipt of a notification of the owner's death, and the proceeds credited to Imperial Funds through the Abstracts of Remittances.

(ii) In the case of British Troops whose Depôts are in the United Kingdom, the procedure as laid down in the Field Service Regulations, Part II, Section 131, will be followed, after the Commanding Officer has received a notification from the War Office, showing who is legally entitled to receive the effects, as it is always possible that the person shown as the next of-kin is not the person entitled.

(v) The report from Indian Expeditionary Forces in Mesopotamia and East Africa will be made to the Secretary to the Government of India in the Army Department, through the Field Disbursing Officer.

2. As regards paragraph 3 —

“ *Field Disbursing Officer* ” will be substituted for “ *Paymaster* ”.

3. With reference to paragraph (c) (i) of these subsidiary instructions :—

Officers Commanding Depôts in India will prepare, *at once*, nominal rolls showing the regimental number, rank and

name of all men who have kits stored in India, and will transmit these lists to the Officer in charge Records in the United Kingdom. Besides these lists, Officers Commanding Depôts, on receipt of a notification of the death of a soldier on service, will take steps to ensure that a list, showing the articles of intrinsic or sentimental value amongst the deceased's effects is forwarded to the Officer in charge Records concerned for instructions as to the disposal of the articles.

1. As regards units which have arrived in India since the commencement of hostilities, personal effects of interest or value should not be disposed of in such cases where soldiers have deposited their Wills at the Record Office until the Officer Commanding has received a notification from the War Office showing who is legally entitled to receive the effects, for the same reason stated in paragraph (c) (ii) of these subsidiary instructions.

In other respects there will be no change in the existing procedure with regard to the disposal of the estates of British officers, warrant and non-commissioned officers and men who die in India.

5 Subject to the above instructions, the disposal of estates in India, real and personal, of British officers, warrant and non-commissioned officers and men, will continue to be governed by the regulations under the Regimental Debts Act of 1873.

420 Corrigendum.—In line two of India Army Order No 369 of 1915, "Army Department" read "Legislative Department."

wish to send a message of thanks to all officers, non commissioned officers and men for the work you have done for the Empire.

19th June
1916

"From the time you reached France you were constantly engaged with the enemy until the end of last year. After a few weeks' rest you returned to the trenches and since then you have continually held some portion of the front line, taking part in the important and successful engagements of Neuve Chapelle, and of Richebourg, and in the heavy fighting at the end of September. The Lahore Division was also engaged in the severe actions near Ypres in April and May.

"That your work has been hard is proved by the number of your casualties

"The British troops of the Corps have borne themselves in a manner worthy of the best traditions of the Army

"The Indian troops have also shown most praiseworthy courage under novel and trying conditions, both of climate and of fighting, and have not only upheld, but added to, the good name of the Army which they represent

"This is all the more praiseworthy in view of the heavy losses among British officers having deprived the Indian ranks of many trusted leaders whom they knew well, and of the fact that the drafts necessary to maintain your strength have frequently had to be drawn from regiments quite unconnected with the units they were sent to reinforce

"You have done your work here well and are now being sent to another place where an unscrupulous enemy has stirred up strife against the King-Emperor

"I send you all my good wishes for success in the part you will now be called upon to play in this great war. I thank you for the services you have rendered while under my command, and trust that the united efforts of the Allies may soon bring the enemy to his knees and restore peace in the world".

* 422. It is with the deepest regret, that His Excellency the Commander-in-Chief republishes the following Army Order, dated War Office the 6th June 1916:—

Message from His Majesty the King to his Troops

"The King has learned with profound regret of the disaster by which the Secretary State for War has lost his life, while proceeding in a special mission to the Emperor of Russia.

"Field Marshal Kitchener gave forty-five years of distinguished service to the State, and it is largely due to his administrative genius and unwavering energy that the country has been able to create and place in the field the armies which are to-day upholding the traditional glories of our Empire.

"Lord Kitchener will be mourned by the Army as a great soldier who under conditions of unexampled difficulty, rendered supreme and devoted service both to the Army and State."

19th June

ment of India have decided that the Army Department letter No. 11-1593, dated 31st May 1916

2. This sanction will have effect from 31st May 1916 and only for the period of the war. The concession is not applicable to members of superior establishments of departments of the Army who have been temporarily entertained with a view to their employment on active service, and have less than six months' service.

Only small pieces of soft wood to represent bones, and not thick planks, should be placed in dummies; nor should sacks be hung against posts or tree trunks.

of India Army Order 224 of 1916,
and the modification of paragraph 2

of India Army Order 699 of 1915, as follows —

468

10th July
1916.

- " 2 Vacancies among warrant officers, class I, of cavalry, artillery and infantry, will be filled by substantive promotion immediately, when the vacancy is due to the causes under categories (a) and (b). Vacancies in categories (c) and (d) will be filled by acting promotion immediately, followed, after three months, by substantive promotion. Vacancies in categories (e) and (f) will be filled by acting promotion only after an interval of one month, but substantive promotion does not follow in these cases.

Before any substantive promotions to the rank of warrant officer, class I, are made under (c) and (d), the necessary application for the posting of a warrant officer should be forwarded to the Record Officer concerned to admit of the posting."

- 2 If, in any case prior to the promulgation of India Army Order No 224 of 1916, a vacancy in categories (e) and (f) was filled by substantive promotion under the authority of India Army Order No 699 of 1915, the promotion will be allowed to stand, but the rules in the above Order must be observed in future in filling vacancies in the rank of warrant officer, class I.

469 Clothing—Indian Army—The Government of India have decided* to accept all ex-

penditure incurred on account of issue of puggra fringes and shoulder titles actually made to men of Indian units in the field. The cost on account of such articles should be recovered in the usual manner by officers commanding depots or units in India.

470 Pay and Allowances—Indian Army—With reference to India Army Order No 151, dated 13th March 1916, some doubt has arisen as to whether "the date of being struck off duty" is the day after which individuals are invalided to India by the Medical Board which examines

470

10th July
1916.

them in the first place, or the date from which they were granted leave on medical certificate by a medical board in India; and also whether sub-assistant surgeons invalided from field service overseas may be granted 60 days' full pay leave under the provisions of paragraph 269, Army Regulations, India, Volume II, in addition to the 3 months' convalescent leave referred to in the India Army Order quoted above.

2. It is therefore notified for information that the Government of India have decided that the Army Department letter No. H-5072, dated 14th June 1916, expression "the date on which they were struck off duty" means the date following that on which the individual becomes sick or wounded and thus ceases to do duty.

3. The ordinary rules for furlough and leave are suspended for the duration of the war, *vide* India Army Order No 131 of 1915, and only the periods laid down in India Army Orders Nos 181, 178 and 518 of 1915 are now allowed to be taken. The grant of any full pay leave to Indian officers and soldiers, including sub assistant surgeons, in addition to the three months' convalescent leave is accordingly inadmissible.

471. Pay and allowances.—With reference to India Army Order No 230 of 1915 it is notified for information that Army Order 102 of 1915, which states that British Service Officers promoted from the ranks since the 4th August 1914 from the Indian Establishment will, except while in India, draw British rates of pay, even if serving with an Indian Expeditionary Force, does not apply to such officers serving with Indian Expeditionary Force "D" who should receive Indian rates of pay, service with that force counting as service in India for this purpose.

With reference to paragraph 233, Army Regulations, India, Volume I, it is notified that the Government of India have decided that when the duties of quartermaster of a British unit are performed by a warrant or non-commissioned officer, the appointment being vacant or the permanent incumbent absent on British pay, extra duty pay will be admissible as follows:—

				Rs	A	P.
Warrant Officer, class I	1	8	0 per diem
Warrant Officer, class II, or non-commissioned officer	0	12	0 " "

472. Indemnification for loss of kit.—With reference to India Army Order No 14 of 1916, it is notified for information that the Government of India have been pleased to approve of the extension to India of the second clause of Army Council Instruction No. 517 of 1916, republished below, except that the claims for compensation preferred by officers thereunder, will be dealt with in accordance with paragraphs 322 and 326, Army Regulations, India, Volume I:—

472

10th July
1916.

WAR OFFICE,

6th March 1916.

517. Compensation to officers for loss of kit on active service.

With reference to A. O. 323 of 1915, cases have occurred in which officers who are in hospital or convalescent, and have not yet been found fit for service, have lost all their kit and have had to provide themselves with fresh uniform to meet their immediate requirements

In such cases it has been decided, as a special concession, that compensation may be granted to officers under Section 19, Allowance Regulations, in respect of *absolutely essential** articles with which they re-equip themselves, owing to their wearing uniform in a hospital or during convalescence

As regards other articles which are not absolutely essential for officers while in hospital or convalescent, no claim for compensation can be considered until the officer is found fit for service necessitating the provision of these articles, as laid down in the A. O. referred to above

It is particularly requested that officers will defer the re-provision of any articles of lost kit until they actually need the articles for use in hospital or during convalescence, in order to allow time for the lost kit to turn up. Many cases have occurred when kit supposed to be lost has turned up after three or four weeks

474. Horses—Army Council Instruction No. 976 of 1916, regarding the care of regimental horses, is published for general information —

474

10th July
1916.

1. A large proportion of the wastage in horses in the Army is due to working animals of all classes at an unnecessarily fast pace, and the numbers which have consequently to be replaced when Divisions are about to proceed overseas, because they are not in a fit condition for service, is a heavy drain upon the resources of the Remount Department
- 2 The training of a Division should be so directed as to render it efficient and fit for service in every particular, including its animals. The instruction of the personnel should be carried out well within the capacity of the horses both from the point of view of pace and mileage. It should seldom, if ever, be necessary to exceed the pace of the regulation trot.
- 3 Commanders of Divisions and Reserve Cavalry and Artillery Brigades should keep themselves constantly informed as to the condition of their horses, and regulate the training accordingly

In this connection, Commanders of units equipped with heavy draught horses are once more reminded that the pace of these heavy draught horses is the walk which, during training, should never be exceeded, even in the case of heavy batteries."

2 All officers concerned are requested to arrange that the above instructions are observed by units under their command

475 Correspondence—It is hereby notified for information and compliance by all concerned that correspondence connected with the preparation of accounts of the Aden Garrison and of Indian Expeditionary Force B, should be addressed as under with a view to the same being dealt with expeditiously by the two separate sections maintained in the office of the Controller of Military Accounts, 6th (Poona) Divisional Area —

475. The Divisional Disbursing Officer, 6th (Poona) Division,
 10th July 1916. Indian Expeditionary Force "B" Section.

476. Correspondence—Telegrams.—The following abbreviated telegraphic addresses have been registered and should be used in all telegraphic communications in future:—

"Artillery Northern" for Inspector of Territorial Artillery, "Northern Group."

"Artillery Southern" for "Inspector of Territorial Artillery," "Southern Group."

477. Correspondence—Precautions to be taken in Correspondence with Neutral and Enemy Countries.—In all letters addressed to persons in neutral countries and to prisoners of war in enemy countries, officers and men are warned not to mention the unit to which they belong, nor to use notepaper that by crest or otherwise reveals its identity. Since the date-stamp on the envelope indicates the post-town of origin, failure to observe this precaution may betray the station of the unit and thus give information of value to the enemy, if the letter falls into hands for which it was not intended.

2. Letters which infringe the above are liable to be returned to the sender.

478. Books.—It is notified for general information that units for whom bicycles are authorised should be in possession of a copy of the Handbook on Military Bicycles, and arrangements for supply should be made in accordance with paragraph 146 (1), Army Regulations, India, Volume II.

479. Passages—Sea.—Intending passengers are warned that until further notice there are no sailings from Egypt to Greece.

480. Accounts—Arrears of Pay and Family Allowment.—It is notified for information of all concerned that,

2. The following standards are laid down as a guide in placing men in the various categories :—

Category "A." Men already serving, recruits when trained or returned E.F. men when hardened. Able to march; see to shoot, hear well and stand active service conditions.

* Men who on being called up from Class B Army Reserve were under previous instructions classified as "Fit for Field Service at Home," will now be classified in one of the categories authorised by this A.C.I., but such men who are now serving in 2nd Line battalions T.F. will remain where they are serving.

3 Recruits will be classified in the categories shown in paragraph 1 by the Recruiting Medical Board assembled at Area Headquarters and will be allotted to units in accordance with the Army Council Instructions for posting recruits in force at the time

4 Men who have returned from overseas either sick or wounded, *on discharge from hospital* (other than a military convalescent hospital), will be marked on Army Form W-3016 by the medical officer in charge of the hospital as—

(a) Fit for duty.

NOTE—Category D is purely a temporary one, so far as reserve units are concerned, and a man in a higher category automatically comes under (D) (iii) if under medical or dental treatment, and when his medical or dental treatment is finished he automatically rejoins his original category until transferred upwards by the M O unit or Travelling Medical Board, or downwards by a Travelling Medical Board

- (b) Fit for light duty and likely to be fit for service overseas within three months.
- (c) Fit for light duty and not likely to be fit for service overseas within three months, or requiring special medical treatment.
- (d) Fit for service at home, but unlikely ever to be fit for service overseas.

5. This marking on Army Form W-3016 will be used to determine the posting of the man on rejoining from the furlough given to him on discharge from hospital, and is a provisional classification for this purpose only.

Officers i/c regular infantry depôts and Officers i/c T.F. Records, will, on receipt of the Army Form W-3016, order an infantry soldier to join on completion of his furlough according as he is marked under para. 4 :—

If marked (a) to a reserve battalion.

If marked (b) to the regimental depôt, or, in the case of a T.F. soldier, a command depôt.

If marked (c) to a command depôt whether the soldier is regular or T.F.

If marked (d) to a reserve battalion, or, if a T.F. soldier, a provisional battalion.*

These officers will ascertain, before sending men to a command depôt, that accommodation is available for their reception, and if it is not available they will be sent to the regimental depôt if regulars, or to their reserve battalion if T.F., until they can be received at the command depôt. While in their depôt or reserve battalion, they will be classified in category D (ii) or D (iii), until such time as they become either fit for a higher category or are sent to a command depôt.

On posting a man returned from overseas the officer i/c the depôt (regulars) and officers i/c Records (T.F.) will at once send the A. F. W-3016 to the O. C. unit or command depôt which the man has been ordered to join.

* Until such time as each reserve battalion (T.F.) has sufficient men for employments all T.F. Infantry soldiers marked as (d) will be posted to reserve battalions T.F.; subsequently all such men will be posted to a provisional battalion T.F.

8 When the man returned from overseas joins the unit to which he is posted on discharge from hospital the terms used on Army Form W-3016 will be discontinued and he will be classified in one of the categories shown in paragraph 1, according to his fitness for various military duties

The classification by categories of men returned from overseas marked on Army Form W-3016 as (a), (b), (c) or (d) of paragraph 4 will in the first instance be determined by such marking

A man marked on Army Form W-3016 as—

"(a) Fit for duty" will be classified in category A (ii)

"(d) Fit for service at Home, but unlikely ever to be fit for service overseas" in category C (i), (ii) or (iii).

7 No man retained in the service will in future be classified as "permanently unfit" or as "permanently fit for light duty only"

8 Any man who, in the opinion of the Medical officer i/c a unit, is unfit for further service, and not likely to be fit for either of the categories A, B or C within six months will as soon as possible be brought before a Travelling Medical Board, who will either—

(i) Classify him under A, B or C, or

(ii) If a returned E F man, classify him under D (i), if considered by them to be likely to become fit within six months in which case he will be sent to a command depot, where these depôts have been formed for the branch of the service to which he belongs, or

(iii) Discharge him from the service

No man will remain in category (d) for more than six months without being brought before a Travelling Medical Board to determine whether he should not be classified under A, B or C, or else discharged from the service

9 Any man who is classified in one of the categories lower than 'A, Fit for general service,' should be transferred to a higher category as soon as he becomes fit for service in such higher category

Medical Officers in charge of units will be responsible for thus transferring men to a higher category without reference

to higher authority, but no man will be transferred from a higher to a lower category except on the authority of a Travelling Medical Board.

10. A nominal roll of men on the strength of a unit will be made and kept up to date in the orderly room of every regular and territorial unit or depot in which such men are serving. A separate nominal roll will be kept of men returned from overseas.

The names of the men on these rolls will be arranged in the categories A (i), A (ii), A (iii), B (i), B (ii), B (iii), C (i), C (ii), C (iii), D (i), D (ii), D (iii), and E, of para. 1 in order that information as to the number of men classified under each sub-head of categories A, B, C and D may be reported without delay when called for.

11. G. Os. C. divisions and Os. C. formations and units will make themselves fully acquainted with the foregoing instructions regarding classification of categories, as it has been brought to notice that many men have been reported as unfit for their duties owing to a misunderstanding as to the category in which they were classified.

24-Gen. No.-4518 (A.G. 1).

R. H. BRADE.

ANNEXURE TO INDIA ARMY ORDER No 503 OF
1916

ARMY COUNCIL INSTRUCTION No.
1152 OF 1916.

WAR OFFICE,

7th June 1916

1152. National Insurance Acts, 1911-15.

1. Representations have been received that insured soldiers, on discharge, are experiencing great difficulty in obtaining from their Approved Societies the benefits to which they are entitled under the National Insurance Acts on account of.—

(a) the delay attending the issue of Army Form O. 1845 by pay offices and in many cases the total omission to issue it, and

(b) the inability of the soldier to correctly complete Army Form O 1845 on receiving it from the discharging officer because he does not know the proper designation of his Approved Society, the particular branch of it to which he belongs, and above all, he is ignorant of his *registered number* in the Society

The point raised at (a) was dealt with in A. C. I. 884 of 1916 and provided the instructions in paragraph 3 thereof—which are again brought to the notice of regimental paymasters—are implicitly observed no further trouble should arise on this score

With reference to (b), in order to avoid delay and possible destitution while the man is obtaining the necessary information to complete his card *on or after his discharge*, company, etc., commanders are requested to impress on each recruit *on enlistment* (when filling up Army Form O 1847) the importance of having available for reference on discharge :—

(i) Name of Approved Society

(ii) Branch

(iii) Membership Number in Society.

and in order to ensure that this is done recruits should be informed (on being banded Army Form O. 1847) that, if they are unable to complete the form, the necessary information can be obtained from their *health insurance books* (6-inch by 5-inch grey-green cover which the man had as a civilian). Further, they should be informed that they should arrange for the careful preservation of these books at their homes against the time of their discharge, as they will again need exactly the same information to fill in a similar card when they leave the Army, and that if they are unable to correctly complete this second card (Army Form O. 1845) and dispatch it to their Approved Society they risk being deprived of the benefits to which they are entitled under the National Insurance Act.

Men already serving in respect of whom cards were previously stamped, or Army Form O. 1847 completed, should be similarly instructed to have their health insurance books kept in safety.

2. To further safeguard the soldier on discharge, regimental paymasters when forwarding Army Form O. 1845 to the officer carrying out the discharge should send with it a covering form letter (A. F. O. 1845A) informing the soldier that if he is unable to correctly complete the form for despatch to his Approved Society he should make reference to his health insurance book, which contains the requisite information. A supply of this form letter will shortly be issued to Regimental Paymasters for use.

3. Future issues of Army Form O. 1845 will have this reference to the insurance book printed on them and the use of the form letter referred to above can then be discontinued.

4. It has also been brought to notice that in many cases, recruits for the New Armies and T. F. who were uninsured as civilians have not, as directed in paragraph 7, A. O. 332 of 1915, been given the option of remaining uninsured, but have had deductions made from their pay without their knowledge or consent. Company, etc., commanders should therefore take every precaution to ensure that men who are entitled to this option should be given the opportunity to exercise it on enlistment, by writing across the front of A. F. O. 1847, "Not insured. Do not wish to be insured." The card should then be returned to the company,

etc., commander, who will send it to the National Health Insurance Commission, London, S. W.

The right of a soldier who was uninsured as a civilian to remain uninsured as a soldier, should also be explained to all men who have enlisted since mobilization and, also, in the case of the T. P. to those uninsured men who have been embodied, and where a man claims exemption and refund of contributions (although a month may have elapsed since the date of his enlistment), on the grounds that he was not offered the terms of A. O 378 of 1914 or A O 13 of 1915 on enlistment, the case should be referred to the W. O

rules govern the grant of wound and injury pensions to civilian superior subordinates whose pay is debitable to the Army estimates

Civilian superior subordinates come under two categories, namely —

(i) Those who belong to the various departments of the Army, such as the Supply and Transport, Medical, Ordnance, Veterinary, Remount, Military Accounts etc

(ii) Those who belong to purely civil departments, such as the Post Office, Telegraph, Railway, etc

All men coming under (i), if their pay is less than Rs 200 per mensem are granted wound and injury pensions in accordance with the provisions of paragraph 1062, Army Regulations, India, Volume I, and such pensions to those drawing Rs 50 per mensem and above require the sanction of the Government of India under item 3 against the entry "wound or injury pension or gratuity" in Appendix 1A, Army Regulations, India, Volume III

Men whose pay is Rs 200 per mensem or more, and all those coming under (ii) above—whether drawing Rs 200 per mensem or less—are dealt with under Chapter XXXVIII of the Civil Service Regulations. The mere fact that their pay when debited on military service is debited to the Army estimates, does not affect the question

2 It should be noted that any such transfers, postings or draftings will be carried out in India under the orders of Army Headquarters only

3 The subsidiary instructions contained in Army Council Instruction No 1166, dated 9th June 1916 (published as an annexure to this Order) should be carefully noted Army Council Instructions Nos 797 and 858 of 1916, thereby cancelled, were promulgated in India with Adjutant General in India Nos 36605-1 (A G-2), dated 5th June 1916 and 36605-2 (A G-2), dated 20th June 1916

ANNEXURE TO SPECIAL INDIA ARMY ORDER
DATED 14TH AUGUST 1916

ARMY COUNCIL INSTRUCTION No. 1166
of 1916.

WAR OFFICE,

9th June, 1916.

1166. Procedure regarding Transfers of soldiers of the Regular Army and the Territorial Force, under the Army (Transfers) Act, 1915, and the Military Service Act, 1916 (Session 2).

The following instructions are issued in connection with Army Order V. of 9th June, 1916 —

I.—Regular Army.

1 In the case of a transfer of a soldier of the Regular Forces, the procedure laid down in paragraphs 323-332a, King's Regulations, will not be carried out except as regards the disposal of the soldier's documents and the notification of the transfer to the Officer-in-charge Records of the man's new Corps

2 When a soldier serving on a regular attestation (or a record of service A F B 2513) is posted to a T. F. unit, the duplicate attestation will be forwarded to the Officer i/c T. F. Records concerned, instead of to the O C. the T. F. unit

3 The following entry will be made in the soldier's attestation or record of service .—

" Transferred under authority of
" and to maintain his former rate of pay of
(or otherwise if so authorized)

The transfer will be notified in Part II of Orders, and the man will receive a new identity disc.

II.—Territorial Force.

4. Unless already in existence, a duplicate attestation will at once be made out by the Officer i/c T. F. Records for each man now serving in a unit affiliated to his office. This duplicate attestation will remain with the original in the custody of the Officer i/c T. F. Records concerned, so long as the soldier continues to serve with a T. F. unit.

5. The documents of a man of the T. F. who is definitely *transferred* from one corps to another, and is posted to a T. F. unit will be completed by the Officer i/c T. F. Records of the corps from which the soldier is transferred, and forwarded to the Officer i/c of T. F. Records of the soldier's new corps.

If, however, the man after transfer is posted to a regular unit of the corps, the documents will be forwarded to the Officer i/c Regular Records of the man's new unit, who will forward the duplicate copy of the attestation to the O. C., the unit.

6. The following entry will be made in the attestation paper, according as the soldier is transferred to another corps or is posted to another unit of the same corps:—

“Transferred or posted to.....”

“under the authority of.....”

“and to maintain his former rate of pay of.....”
(or otherwise if so authorized.)

7. On transfer to his new corps, or on posting from a T. F. to a regular unit, the soldier receives a new regimental number and ceases to have any connection with his former corps or unit. His pay account and separation allowance payment will be transferred accordingly.

8. Attention is drawn to the necessity for issuing new identity discs in these cases.

9. Should a soldier who is serving on a T. F. attestation be re-transferred or re-posted to his original T. F. unit either during or at the termination of the war, he will resume his original T. F. number.

10. Service with a regular unit will reckon towards the qualifying service for the T. F. efficiency medal.

11. A man who is merely *attached* to another unit remains a member of his original unit and his documents are retained by the Officer i/c T. F. Records of that unit.

12. It is thus a matter of great importance that C O's of units, having men attached thereto from other units, should be careful to send copies in accordance with A O 848 of 1915 of Part II of Orders to Officers i/c T. F. Records, Regimental Paymasters and T. F. Associations responsible for the documents and accounts of the attached men, in order that these authorities may be aware of casualties affecting these soldiers.

13. A. C. Is 797 and 858 of 1916 are cancelled.

The anchoring buffer, which is connected to the axletree by the stay (*q*), and to the radial arm (*r*) of the pivot plate by the crosshead (*s*), consists of a steel cylinder (*t*), with glands and stuffing box, a piston with a rod at each end, and volute springs (*u*), the lower piston rod is connected to the crosshead (*s*), and the upper carries the volute springs (*u*), the piston is thus stationary, and the cylinder free to move with the carriage on recoil. PLATFORM, SIEGE, DOUBLE-DECKED, MARK II.

The platform consists of two layers of 3-inch deal planks, the bottom layer being parallel to the line of fire, the upper layer at right angles to it. Under the bottom layer are placed three transverse planks (or transoms) similar to those in the top layer, as shown in the plate. Under the front is bolted an oak baulk, 9 inches square, to receive the eyebolts of the holdfast. The two layers of planks are secured to the transoms by 8-inch bolts, and to the front baulk by 14-inch bolts. A riband of deal 6 inches by 3 inches is placed on top of the outer edges of the planks on each side of the platform, and bolted through to the transoms by three 12-inch bolts, and to the front baulk by an 18-inch bolt.

A thin washer plate for each bolt is placed under the pivot plate on top of the upper planks, and on top of the transoms under the bottom planks, which, by means of split keys passing through the bolts, prevent the bolts slipping down while the nuts are being screwed up.

A steel binding plate, 4-inch by $\frac{1}{2}$ -inch, is attached to each outer side of the platform by thirteen $\frac{1}{2}$ -inch coach screws, 3 inches long. — 28

[COPY OF LEAFLET DISTRIBUTED TO SOLDIERS.]

INVESTMENTS FOR SOLDIERS.

SAVE YOUR PAY AND INCREASE YOUR SAVINGS.

IF YOU HAVE LESS THAN £5 TO INVEST, SEE NEXT PAGE.

Exchequer Bonds.

If the balance of your pay account is £5 or more you can buy Exchequer Bonds carrying interest at 5 per cent. These bonds are issued in amounts of £5, £20, or £50. You may buy any number of these bonds. They are sold at their face value.

Interest is payable at the rate of 2s 6d for each £5 on the 1st of June and another 2s 6d on the 1st of December in each year, and will reckon from the day your Commanding Officer signs your application form. The full amount of the bond will be repaid on the 1st December 1920.

How to invest.

All you have to do is to ask for a Form and fill it up to show what bonds you wish to buy. The bonds will then be bought for you through the General Post Office, London. If you are abroad the General Post Office, London, will take care of the bonds and save the interest for you till you return home. In the event of your death the value (bond and interest) will be payable to your legal representative.

Should you want your money back before 1920, the General Post Office, London, will sell your bonds for you at the market price, charging you a small fee (9d up to £25). If you are abroad, this can be arranged through your

Commanding Officer Of course the market price varies and may sometimes be less and sometimes more than the face value, but there is not much risk of loss because the bonds are guaranteed by the British Government, are repayable in full on the 1st December, 1920, and carry 5 per cent interest.

Income Tax will not be deducted from the interest on the bonds you hold unless you hold more than £200 in the bonds and in 4½ per cent War Loan together.

Subscriptions to the 4½ per cent War Loan can no longer be received

War-saving Certificates.

Many soldiers have some undrawn pay lying with the Field or Divisional Disbursing Officer which brings in no interest. If you transfer this to the General Post Office London, it will earn interest for you.

For every 15s 6d invested now, and left for 5 years, you will then get £1 back, that is, compound interest at 5 per cent a year.

At the end of the war or when you are discharged, if earlier, the General Post Office, London, will give you a book to enable you to draw your money from any Post Office in the United Kingdom, but to save you all trouble and risk of the book being lost or stolen, the General Post Office, London, will hold your money and take care of your book while you are a soldier. After discharge you can have your money back at any time with interest; 15s 9d one year after you invested it and after that 1d for each extra month until at the end of five years you get a complete sovereign. The years reckon from the day your Commanding Officer signs your application form.

How to invest

If your balance is 15s 6d. you can buy one certificate. All you have to do is to ask for a form and fill it up. For £1 11s. you can buy two certificates, for £2 6s. 6d. three certificates, and so on and you can do this as often as your balance has grown large enough. If your balance is less than 15s. 6d. let your pay remain undrawn until it reaches that amount and then invest.

Advantages of the scheme.

1. It is perfectly safe. You cannot fail to get your money back in full, even if no interest has begun to count, and in the event of your death your money and interest will be paid over to your family, just as if it were with the Field or Divisional Disbursing Officer.

2. Your savings are earning a high rate of interest. At the end of 5 years your money will have grown to practically one-third more.

3. You can get your money back at any time after the end of the war or after your discharge. That is the time when you are most likely to be in want of it.

The only limit is that you cannot buy more than 500 certificates. No Income Tax will be charged on any interest earned under this scheme.

Adjutant-General in India.

ANNEXURE TO SPECIAL INDIA ARMY ORDER
DATED 1st NOVEMBER 1916.

ARMY COUNCIL INSTRUCTION.

No. 1670 of 1916.

WAR OFFICE,

27th August 1916.

1670. Decisions as to eligibility for Bounty under Army Order 209 of 1916.

Questions having been asked on the following points with reference to A. O. 209 of 1916, the following decisions are notified :—

1. In the case of a man who had qualified for bounty under para. 1 (iii) or (iv) of the A. O., but become non-effective before the date of the A. O., the amount due should be paid to him or credited to his estate. Bounty will not of course be due in the case of a man who had agreed to continue in the service under A. O. 252 or 253 of 1915, or had re-engaged, if he became non-effective before entering upon the extended period of his service.

2. A man who re-engaged to complete 21 years' service since the 4th August, 1914, and before the issue of A. O. 49 of 1914, is eligible for bounty under the provisions of paras. 1 (iv) and 5 of the A. O.

3. A man who has been permitted, before the discontinuance of discharges on termination of engagement under A. O. 202 of 1916, to continue in the service beyond 21 years under para. 270, King's Regulations, will only be eligible for bounty if he gives 3 months' notice under para. 272, King's Regulations, and is retained in the service, under the Military Service Acts, after completing a year's service (A. O. 76 of 1915) beyond the expiration of the 3 months' notice. To obtain a bounty such a man will therefore require to give notice of his wish to be discharged and not to have attained the age of 41 on completing 15 months' further service.

4. A man permitted to continue beyond 21 years under para. 270, King's Regulations, since discontinuance of discharge on termination of engagement under A.O. 202 of 1916, will be eligible for bounty, on completion of 22 years' service, if he has not then attained the age of 41, and is therefore liable to retention in the Service for the duration of the war under the Military Service Acts.
5. A man who re-engaged or agreed to continue in the Service and has subsequently been released from the colours for employment on munitions work remains eligible for bounty under the conditions of A.O. 209 of 1916, although still a munition worker when the bounty becomes due.
6. A man who while released for munition work reaches the end of his current engagement (together with the extra year under section 87 (1) Army Act or IX (5) of the Territorial and Reserve Forces Act) and is retained in the service under the Military Service Act, is eligible for bounty. Bounty will not, however, be admissible for an ex-soldier engaged as a civilian on munition work who becomes liable for recall under the Military Service Acts but is not actually recalled to the colours.
7. A man who became due for discharge on termination of engagement before mobilization, but continued to serve without re-engaging and has since claimed his discharge, will be eligible for bounty if on completing one year from date of claiming discharge he is further retained in the service under the Military Service Acts.
8. A man who became due for discharge on termination of engagement before mobilization and continued to serve without re-engaging, and has not since claimed his discharge, will be eligible for bounty subject to the condition of the A. O. if he claims his discharge and is retained in the service under the Military Service Acts beyond twelve months from the date of claiming discharge.
9. Service in the National Reserve on 4th August, 1914, is not to be regarded as service on an Army engagement for the purpose of the bounty (para. 7 of A. O. 209 of 1916).

Service in the T. F. Reserve on 4th August, 1914, is service on an Army engagement for purpose of the bounty.

permanent grade, to any acting intermediate rank, or to the ranks if he has no permanent grade above the ranks.

811. Passages—Railway—Abnormal Movements—Grant of Compensation—The Government of India have had under consideration the question of granting compensation for the extra expenditure caused to units and individuals by abnormal movements ordered since the outbreak of war, in the interests of the State.

2. It is recognised that it is impracticable to lay down a hard and fast definition of the term "abnormal move." Every Government servant or unit of the Army is liable to be moved without any special concession in ordinary times, and the Government of India must therefore hold that, as a general rule, units cannot expect to escape all liabilities due to a sudden or unexpected move necessitated by the war. But when such a move is followed by others before the normal periods of stay at the new stations have been completed, such moves may be regarded as 'abnormal' in order to entitle a unit or individual to claim the special concessions sanctioned in paragraph 1 below. Each case should, however, be considered on its merits and decided by the General Officer Commanding, Division or Independent Brigade, in consultation with his Controller, and only such cases as cannot be disposed of accordingly should be submitted through the Q. M. G. in India for the orders of the Government of India.

3. The numerous claims on this account include various items of expenditure which can fairly be classified as a charge against the State, but some also include expenses which the unit should reasonably be expected to meet.

The items enumerated in the claims referred to may be classified under the following headings:—

- (i) Those due to the cost of actually moving regimental stores and baggage of individuals in excess of the authorised scales laid down in paragraphs 104 and 110, Army Regulations, India, Volume X.
- (ii) Those consequent on the abnormal movements, *e.g.*, loss due to enforced sale of miscellaneous regimental or private property, and its replacement at the new station.
- (iii) Those due to breakages, damages to, or loss of kit, etc.

811

6th Nov.
1916.

4. In the case of units which have proceeded on field service under the orders in Army Department letter No. H.S.-268, dated the 12th January 1915, Officers Commanding Depôts are authorised to take with them the baggage and kit of officers and men left behind in India and such regimental property as would be required for the use of the unit when moving. at the claims of depôts, coming 8 ante, but it does not mean which have had abnormal moves in India, as distinct from those which went on field service. It is impossible to fix any definite scale which would be equitable to the unit or individual, owing to the varying circumstances of each case. In order therefore to avoid instituting an enquiry into each case, which would involve long correspondence and delay, the Government of India have decided that all existing and future claims on this account, during the period of the war, shall be adjusted as follows :—

Army Department letter
No. 23233-33 (Q.M.G.-1),
dated 11th October 1916.

(a) In the case of units which were moved prior to 4th November 1915, the cost of moving, or loss involved by the enforced sale at the old station and replacement at the new station, of such articles as are referred to in Army Department letter No. 27654-1 (A.G.-1), dated the 4th November 1915, will be borne by the State, subject to the conditions :—

(i) that the State will not undertake any responsibility in regard to buildings, etc., of an unusual kind, which would probably not be taken over by incoming units on relief; and

(ii) that claims for compensation on account of portable articles and appliances will be decided with reference to whether the articles in question are necessary in the interests of the service and are articles which regiments ordinarily possess, as distinct from those which no relieving unit can reasonably be expected to take over.

(f) An extra allowance may be granted to cover all other claims for the actual cost of moving regimental property, stores, and baggage of individuals, subject to a maximum of 100 per cent. on the scales laid down in Army Regulations, India, Volume X, paragraphs 101 and 110. This extra allowance will not, however, be admissible in respect of those articles for which compensation is granted under clause (a) above, and which come within the category of articles for which free conveyance is allowed under paragraph 110, *et seq.*

(c) All claims for compensation for losses due to breakages, damages to, or loss of, kit, etc., will be dealt with by General Officers Commanding, Divisions and Independent Brigades, under existing rules (paragraphs 322-324, Army Regulations, India, Volume I).

5. The above concessions do not apply to Territorial and Garrison units which are provided by Government with all necessary regimental, mess and institute furniture and equipment.

812. Passages—Railway—Movements of troops by Rail—The Government of India have recorded sanction to the following scale of accommodation for British and Indian troops moving by rail about India during the hot weather, *i.e.*, from the 1st April to 30th September, when 2nd class accommodation is not provided:—

British Troops.

For all journeys:—

4.5ths of the Military carrying capacity authorised in the 2nd sentence of paragraph 159, Army Regulations, India, Volume X, or 2.5ths of the public carrying capacity of 3rd class carriages.

An additional four-wheeled vehicle will be provided for use as a coffee shop when a troop train is ordered.

6th Nov.
1916.

(a) For journeys over 700 miles, and to or from ports:—

As for British troops:

(b) Other journeys —

4-5ths of the scale of accommodation laid down in paragraph 160, Army Regulations, India, Volume X.

2. Sanction is also accorded to the extra expenditure involved by running fast trains when the load does not admit of the minimum number of vehicles to be paid for being used.

813. Passages—Sea—It has been decided by the Secretary of State for India that persons who were entitled to passage to India on grounds not connected with the war, on the recall to India of officers, non-commissioned officers and men in August 1914, for whom transport would be granted passage by private steamer made accordingly in cases in which they made their own arrangements for passages if they embarked after the 6th November 1914.

2. Individuals who had acquired the right to passage to India in circumstances connected with the war, and whose passages are chargeable to Indian revenues, will be entitled to a refund of passage money, in cases in which they made their own arrangements, provided they embarked for India after the 17th August 1915.

3. Individuals who were due to be conveyed to India at War Office expense and who have come to India by private steamer in the absence of transport accommodation, will be entitled to a refund of passage money, in cases in which they have made their own arrangements, provided they embarked for India after the 27th October 1915. But no refunds will be granted in cases in which embarkation took place before the above date.

4. Refunds of passage money will be made at the rates authorised in paragraph 40, Army Regulations, India,

Volume X, for the class of accommodation to which the persons concerned are entitled under paragraph 112, *ibid.* In the case of individuals entitled to 3rd class accommodation the amount to be refunded will be at the rate of £10-2-6 (Rs. 286-14-0) which is the contract price of a 3rd class passage by private steamer from England to India. 6

5. Applications for refunds of passage money not coming under this order should be forwarded to the Quartermaster-general in India, but all others will be disposed of by General Officers Commanding Divisions and Independent Brigades.

Army Headquarters, Simla, the 13th November 1916

Passages—Sea—Movement of Troops—Instructions as regards trooping movements and action to be taken in connection therewith, are published as an annexure to this order for the guidance of all concerned

2 Supplementary instructions for troops travelling by rail are also issued as an addendum to this order. They should be republished in divisional, brigade, station and regimental orders and a copy given to each conducting officer whenever troops travel by rail.

3 General Officers Commanding will take steps to ascertain that all Station Staff Officers and despatching officers understand this important work

4 Cases have occurred of troops being despatched without warnings and of insufficient notice being given to stations en route to enable proper food to be provided. The staff at stations of despatch must foresee and provide for all requirements of troops to their destination. It is particularly important that ample warning should be given to the headquarters of the Brigade or Division to which troops are proceeding when a journey by road from railhead to hill stations is involved, in order that proper transport and supply arrangements may be made

J. M. WALTER, Major General,
Adjutant-General in India.

ANNEXURE TO SPECIAL INDIA ARMY ORDER,
DATED 13TH NOVEMBER 1916

TROOPING INSTRUCTIONS

GENERAL

The Embarkation Commandants, ^{Bombay}~~Karsch~~, are under the direct orders of Army Headquarters in all matters connected with troopings. These bags should be packed and marked before men leave their units and all ranks informed that they will be loaded in the vans and will not be available again until they are on board ship. Each man will therefore keep on and take with him in the railway carriage the articles, including blankets, which he will require during the rail journey.

* For troops serving under divisional headquarters direct.

17. When individual not-entitled passages, definitely allotted, cannot be taken up, the Embarkation Commandant who allotted them will be informed at once by wire. Neglect to do this will render the individual liable to be treated as having been allotted a passage and therefore time-barred for 3 years.

18. Private or demi-official letters applying for not-entitled passages will not be attended to. Official correspondence only recognized.

19. State telegrams sent on account of not-entitled passages will be paid for by the individual concerned.

24 The "posting" orders furnished to the embarkation staff officer in accordance with item "Posting" orders on 322, I A F Z-2000 will be forwarded to the staff officer seven days prior to disembarkation.

RAILWAY ARRANGEMENTS

25 *British Troops*—When British troops move by rail the Officer Commanding a troop (or his Adjutant) the Medical Officer, and all commanding officers and warrant and non-commissioned officers will be selected from those having previous Indian experience. General Officers Commanding are responsible for taking steps to see that this is always done and that a British officer accompanies all parties of over twenty men.

When the party travelling is under twenty despatching officers will arrange with R T O's for it to join other parties, where this is possible.

Indian Troops—All parties of Indian troops moving by rail will be entrained by a British officer. If any party which has not a British officer in command has to change trains anywhere *en route* to port of embarkation, a British officer will be sent from the supplying regiment or dépôt to entrain it for final destination.

26 Despatching officers will communicate the information in Appendix I to Officers Commanding troop trains so far as it applies to the journey to be undertaken.

A commanding officer must give to the guard of the train a memorandum detailing any delay in starting from the station of origin due to the military authorities, also for any halts *en route*, except those specified in the time table which may have been incurred at his request.

27. (a) The despatching staff officer will, in communication with the commanding officers and supply officers concerned, arrange for rationing troops and families moving by rail to destination. In those cases where the troops and families have to spend the train a period longer than that for which rations can be carried with due regard to the nature of the latter and to the space available, arrangements will be made by the despatching staff officer for the issue of further supplies of rations at a convenient station, or stations *en route*; but tea and sugar will always be issued at halt stations. Families will receive rations, *vide* Army Regulations, India, Volume II, paragraph 897.

(b) Under Army Tables—Miscellaneous Services, Section Cheese and jam. III, Table LIX, cheese and jam may be issued to British troops and families travelling by rail in lieu of the ordinary vegetable ration.

(c) Cold sweetened tea on the scale of 2 pints per ration, per diem, will be issued to British soldiers travelling long distances by rail in troop trains.

One pint of fresh milk, or the equivalent in condensed milk, is allowed for each child under five years of age travelling by rail, to or from a port, in a troop train, on a journey of over 12 hours' duration.

(d) When possible, arrangements will be made by officers in charge supplies for the issue on payment at halt stations of cocoa and condensed milk.

(e) A list of railway stations at which British troops and families moving by rail can draw train rations, and showing the supply officers on which each is dependent, will be found at Appendix II.

28. British troops and families travelling by rail, otherwise than in troop trains, may draw ration money in lieu of rations for each day of the journey exclusive of the day of embarkation [*vide* Army Regulations, India, Volume I, paragraphs 642 (f) and 643 (a)].

29. At stations where troops halt for their meals, boiling water for making tea will be supplied on the scale of $1\frac{1}{2}$ pints per adult not less than 16 years of age and 1 pint per child; the scale of fuel for boiling this water is 1 lb. per adult, no fuel being allowed for children (*vide* Army Tables—Miscellaneous Services, Section III, (1913), Table LXXIX, item 18).

In order that the boiling water may be ready at the railway station at which the troops halt for meals the despatching staff officer will inform the officer in charge supplies concerned (*vide* Appendix II) of the quantity of boiling water required, in sufficient time and will send a duplicate copy of his requisition to the supply officer (care of station master) at the railway halt station.

The supply official at a railway halt station will ascertain from the railway officials the probable time of arrival of the trains conveying the troops and preparations accordingly.

30. Attention is invited to paragraphs 199 and 200, Army Regulations, India, Volume X, regarding refreshments for individuals and small parties at railway stations. Officers or non-commissioned officers in charge of parties will take such steps as will ensure that refreshments are only ordered when the men are in a position to pay for them. They will obtain from the manager of each refreshment room at stations *en route*, a certificate to the effect "that all charges for food, etc., supplied to the party were settled before the troops left the station." The number and date of this notification and the designation of the officer addressed should be given to them, for reference, in case a communication with the Embarkation Commandant at the port may become necessary during the journey.

37. Telegrams will be sent to the Embarkation Commandant when the officer or non-commissioned officer in charge has Ports to be notified of changes that occur *en route* reason to believe that the train will be considerably delayed or the numbers with which they started are augmented by the addition of other parties or individuals in the course of the journey.

38. in lieu of including in the nominal roll a list of non-commissioned officers and men already in receipt of the Class I rate of service or proficiency pay, although not qualified for it by rank, who are considered fit to retain it, it will suffice if the officer commanding renders a certificate in respect of these non-commissioned officers and men in the following terms, *viz.* :—

"Certified that the qualification of non-commissioned officers and men already in receipt of service or proficiency pay Class I, have been reviewed, and that they are qualified to retain that rate for the year commencing 1st July 1916, with the following exceptions"

and attaches a list of those who are not considered fit to retain the Class I rate. The non-commissioned officers and men included in this list will then be reverted to Class II as from 1st July 1916, in accordance with paragraph 4 of India Army Order 701 of 1915.

This course may be adopted in lieu of that prescribed in India Army Order 701 of 1915, where the rolls have not yet been rendered.

852 Signalling Equipment.—It is notified for information that a revised scale of equipment as shown in the annexure to this order has been sanctioned in supersession of the scale shown in the annexure to India Army Order No. 153 of 1916

853. Mobilization.—Several instances have recently occurred in which the documents of individuals and drafts proceeding to join Indian Expeditionary Force "D," have been incompletely or incorrectly prepared

The attention of all concerned is directed to the necessity of strict compliance with the instructions for the preparation of documents issued under Adjutant General's Memoranda No. 17-23-A.G.M., dated 17th April and 17-28-A.G.M., dated 24th July 1916, respectively, to the address of General Officers Commanding all Divisions, Areas and Independent Brigades except Aden Brigade

"(f) *Pieceworkers in Government Presses.*—The subscriptions of piece workers in Government Presses are not subject to the minimum limit of 6½ per cent. of salary. In their case the maximum limit of 15½ per cent. will be calculated on the highest earnings drawn for any day falling within the period 15th February to 14th March of the financial year preceding. If, however, a piece worker has been absent during the whole of that period, the limit of 15½ per cent will be calculated on the highest earnings drawn for any day of the first subsequent press month (15th of one month to the 14th of the next month) in which he is employed"

855 Accounts—Advances—It is hereby notified for the guidance of all concerned that officers in charge of hospitals, or any officers under whose orders invalids returned from

1916.

field service may be placed on their way to convalescent depôts, are empowered to make suitable advances of pay on the authority of a Station Order, to admit of these men being in a position to pay for incidental expenses on their journey to their destination. These advances may be made in addition to any allowances which may be issued to pay, for food, etc. The advances should be entered on acquittance rolls (separate ones for each unit), signed for thereon by the soldier, which should be forwarded to the Divisional Disbursing Officer of the Division in which the payments have been made who will take early action to communicate the payments to the account officer concerned for adjustment. A record of all payments made should also be made in the man's field service pay book and the entry signed by the officer making the payment.

856. Extension of Operations of Divisional Disbursing Officers.—India Army Order No. 146, dated 16th March 1914 is modified as follows:—

For the first clause of Section III—Accounts of Indian units—substitute the following:—

III.—Accounts of Indian Units.

“Instead of pay lists and muster rolls being prepared by a unit, the Divisional Disbursing Officer will prepare monthly the claims for pay and allowances of each Squadron, Battery or Company of Indian units on I. A. F. A.-23 for Silladar Cavalry and on I. A. F. A.-156 (Acquittance Rolls) for Non-Silladar Cavalry, Indian Artillery, Infantry and Indian personnel of Sappers and Miners, showing in detail the pay and allowances due to every individual, and will send a copy of the forms for completion and retention and use as Acquittance Rolls, together with a cheque for the amount due, to the Squadron, Battery or Company Commander.

“Copies of regimental and other orders which affect pay and allowances will be sent weekly by units to the Divisional Disbursing Office.

"To enable regimental and other deductions from pay to be posted expeditiously into those copies of the forms which are sent for regimental use, details of all deductions will be maintained by units throughout a month in forms designed for this purpose and the total deductions only which may be due from each individual will be posted into the Acquittance Rolls"

It will be noticed that the main features of the scheme are that —

- (i) the accounts of Indian units will be prepared by the Divisional Disbursing Officers on a nominal basis giving the full details of pay and other allowances due to every individual
- (ii) the form of pay bill which is to be used by the Divisional Disbursing Officer for this purpose is an adaptation of the present Cavalry Acquittance Roll forms I A F A 23 for Cavalry and I A F A 156 for the other arms. The unit will thus be relieved of the work involved in determining the pay and allowances due to each officer, non-commissioned officer and man,
- (iii) the copy of the form which will be prepared by the Divisional Disbursing Officer so far as the account with Government is concerned, and which will be sent to the unit, will be used by the Officers Commanding Squadrons Batteries and Companies for taking the Acquittance of the men,
- (iv) the same documents as are now used under the normal cost system for introducing changes into the pay bill i.e. regimental orders vouchers, etc, received from units will continue to be used under the proposed system for preparing the pay list on a nominal basis,
- (v) a separate form which has been devised for this purpose, will be maintained by Officers Commanding Squadrons, Batteries and Companies for working out the regimental deductions of the men, and only the totals of the deductions shown in this form will be transferred to I A F A -156 or I A F A -23 as the case may be

The practice of employing substitutes should be resorted to as sparingly as possible.

870. Forms—The Government of India have decided to hold in abeyance for the period of the War paragraph 4 of instructions on page 148 of India Army Form Z-2001, regarding the issue of forms to units on payment, and that Army Books, Army and India Army Forms required by units of the Regular Army and Territorial Force on the Indian Establishment, serving in or out of India, should be supplied free of charge.

871. Forms—The Government of India have approved of the following correction to India Army Form S-1528, which should be made in manuscript pending a reprint of the form :—

*872 Passages—Sea—Movement of Troops—Instructions as regards trooping movements and action to be taken in connection therewith, are published as an annexure† to this order for the guidance of all concerned.

2. Supplementary instructions for troops travelling by rail are also issued as an addendum† to this order. They should be republished in divisional, brigade, station and regimental orders and a copy given to each conducting officer whenever troops travel by rail.

3. General Officers Commanding will take steps to ascertain that all Station Staff Officers and despatching officers understand this important work.

4. Cases have occurred of troops being despatched without rations and of insufficient notice being given to stations *en route* to enable proper food to be provided. The staff at stations of despatch must foresee and provide for all requirements of troops to their destination. It is particularly important that ample warning should be given to the headquarters of the Brigade or Division to which troops are proceeding when a journey by road from railhead to hill stations is involved, in order that proper transport and supply arrangements may be made.

ANNEXURE TO INDIA ARMY ORDER No. 883,
DATED 4TH DECEMBER 1916

ARMY COUNCIL INSTRUCTION.

No. 1840 of 1916.

WAR OFFICE,

23rd September 1916

1840. Procedure in connection with the Attachment, Posting, Transfer and Drafting of Soldiers of the Regular Army and the Territorial Force.

The procedure to be followed in dealing with cases of "attachment," "posting," "transfer" and "drafting," and the precise significance of these terms do not appear to be generally understood. The following particulars are accordingly notified for the information of all concerned, with special reference to A. O. 204 of 1916

ATTACHMENTS

1. *Definition.*—The term "attachment" denotes the movement, of a more or less temporary character, of a soldier to another unit either belonging to the same or to a different corps or to the same or to another arm of the service, Regular or T F. A Regular or T F soldier who is "attached" to another unit remains a member of the unit from which he is detached

2. A soldier so attached remains on the strength of his old unit, but is borne supernumerary to its establishment and is eligible for such promotion in it as he would have been entitled to had he not been attached to another unit. Except in certain cases where special instructions have been issued he is not eligible for promotion in the unit to which he is attached. The attachment of a man to another unit does not involve any change in the custody of his documents, or in connection with his pay account, or the issue of his separation, &c., allowances. Moreover, as he remains a member of his old unit, he does not require new identity discs, nor should any change in dress distinctions be made

3 In some cases such attached men are provided for in the establishment of a unit, as an ordinary incidence of army service, in order to provide for the performance of certain specialised duties in the unit (*e.g.*, R.A.M.C. water duty men and A.S.C. drivers, &c., attached to units of other arms). In other cases it is necessary to form temporary or provisional units composed entirely of "attached" men from permanent units, *e.g.*, Cadet Schools and Command Depots, T.F. Provisional units, &c. Other attachments may arise from casual circumstances which may necessitate the soldier being detached from his own unit and some provision being made in the circumstances for him to be temporarily fed, paid, and disciplined by another unit.

4 The fact of the attachment of a soldier, Regular or T.F., in either of these ways is notified in Part II of Orders of the unit which he leaves and also in those of the unit to which he is attached.

5 It is most important that the C.O. of a unit having a soldier attached thereto from another unit should be careful to send daily copies of Part II of Orders to the Officer in Charge Records, the Regimental Paymaster, and, in the case of a T.F. soldier, the T.F. Association, who are responsible for the documents and accounts of the attached soldier, in order that these authorities may be aware of casualties affecting him.

6. It is also most important that C.O.s and others should always show on casualty returns, sick reports, &c., in the case of an attached soldier, the fact that he is so attached, indicating, in addition, the unit to which the man actually belongs.

POSTINGS

7 *Definition* — The term "posting" is used in this A.C.I. to denote only the movement (posting) of a soldier from one unit to another of the same corps as defined by the Corps Warrant (Army Order 250 of 1916). It excludes the allotment (posting) of a recruit to a corps or his appointment to a corps after approval.

As explained below, a soldier "posted" to another unit becomes a member of that unit, and is treated for adminis-

trative and other purposes similarly to other members of the unit

8 When a soldier is posted to another unit, the fact is notified in Part II of Orders of the unit which he leaves, and also in those of the unit to which he is posted. On posting, the soldier is borne on the strength of the new unit according to his permanent rank and seniority. He is consequently struck off the strength of his former unit, and the vacancy he creates in that unit can be filled by any necessary promotion.

9 When a T F soldier is posted to another T F unit his attestation, pay account, and payment of separation allowance and allotment of pay will be transferred to the Officer i/c T F Records, Regimental Paymaster and T F Association, respectively, of the new unit in cases where any or all of these authorities differ from those of the soldier's old unit, otherwise no change is necessary as regards these matters. In this connection the last sentence of paragraph 11 will be borne in mind. The soldier is allotted a regimental number in his new unit receives new identity discs, and his dress distinctions are assimilated to those of his new unit.

10 When a T F soldier is posted to a Regular unit, a copy of his original attestation is prepared by the Officer i/c T F Records, both being then sent to the Officer i/c Regular Records concerned, with the fact of the posting noted on page 3. The soldier is then given a new (Regular) regimental number and new identity discs, and his dress distinctions are assimilated to those of his new unit. The soldier's pay account will be transferred where necessary to the Regimental Paymaster of the Regular unit, to whom also the payment of separation allowance and allotment of pay will be transferred from the T F Association formerly responsible therefor.

11 When a soldier of the Regular Army is posted to a T F unit, both the original and duplicate copy of the soldier's attestation will be sent to the Officer i/c T F Records, a T 1 number will be allotted to him and new identity discs will be issued. The soldier's pay account will where necessary, be transferred to the Regimental Paymaster of his new unit, and the payment of separation allowance, &c., in respect of the soldier will be transferred to the T F,

Association administering that unit. Where the unit to which the man is posted is administered jointly by more than one Association, the Officer i/c T. F. Records will select that one for the county in which the soldier was domiciled prior to his enlistment or which for any other reason may seem to be most suitable.

12. When a soldier is posted from one Regular unit to another, his attestation remains in the custody of the Officer i/c Regular Records who has previously kept it, and his pay account and separation allowance payment will continue to be dealt with by the Regimental Paymaster hitherto responsible for them.

13. When a soldier is re-posted from a Regular unit to his original T. F. unit, or *vice versa*; the fact will be notified in Part II of Orders of both units (see para. 8), he will resume his original regimental number, and his attestation will be returned to the Officer i/c T. F. Records of the unit from which he was posted in the first instance. His pay account and the issue of the separation allowance will be re-transferred (see paras. 10 and 11).

TRANSFERS.

14. *Definition.*—The term “transfer” denotes the permanent movement of a soldier *from one corps to another* whether of the same or of a different arm of service.

On “transfer” to another corps a soldier ceases to have any connection with his former corps.

15. If it is desired to carry out the permanent movement of a T. F. soldier to a Regular unit of another corps, the following procedure will be observed:—

(a) He will be transferred to a corps containing both T. F. units or soldiers (see Royal Warrant issued as A. O. 250 of 1916) and the Regular unit which it is desired that he should join.

(b) He will then be posted to that Regular unit.

16. On transfer the soldier receives a regimental number in the new corps or, if he is posted to a T. F. unit of the corps, in his new unit. He will be eligible for promotion in his new unit in the same way as any other man belonging to

it A "transfer" necessitates the issue of new identity discs and the adoption of the dress distinctions of the new unit

17. A transfer is recorded in Part II of Orders of both units, i.e., the units from and to which the transfer is made. The attestation will be sent to the Officer i/o Records of the new unit

In the case of the transfer of a T. F. soldier, the Officer i/o T. F. Records of the unit from which the soldier is transferred will endorse the attestation on page 3 as follows —

"Transferred under authority of _____

"to _____ Corps _____ Date "

"To maintain his former rate of pay of _____

(or otherwise if so authorized)

and will send it to the Officer i/o Records of the unit to which the soldier is posted on transfer. If the latter is a Regular unit, the Officer i/o T. F. Records of the soldier's former unit will make out a copy of the man's original attestation and send it with the original. The Officer i/o Records of the soldier's new unit will endorse the attestation with the soldier's new number and make the following entry on page 3 —

"Posted under authority of _____

"_____ Unit _____ Date "

18. On transfer the soldier's pay account will be transferred to the Regimental Paymaster of his new unit

As regards separation, &c., allowances, issue will be made by the Regimental Paymaster or T. F. Association of the unit to which the soldier is transferred, according as that unit is Regular or T. F. and payment will be transferred accordingly from the previous paying agency, Regular or

* *Fide* special India T. F. as the case may be (*see also* Army Order dated 14th A. C. I 1136 of 1916). August 1916.

COMPULSORY DRAFTING TO OTHER CORPS

19. As regards the compulsory drafting under para 1 (d) of A. O. 204 of 1916, the effect is similar to that of a man "posted" to a unit, and the administrative action to be

taken in consequence of such drafting will be the same as laid down in this A. C. I. for ~~drafting~~ ^{drafting}.

GENERAL.

20. Where transfers of any accounts or of separation allowance payment required under the provisions of this A. C. I. have not already been made in the case of any postings or transfers which have been carried out, they should be effected without delay.

2. 902 (1). When an officer or individual resident abroad, who proceeded to this country after the declaration of war and rejoined or was given a commission in the British Army, either direct or after a period of service in the ranks, desires

to return to the place whence he came at the public expense, he should apply to the War Office for return passage.

The application should give full particulars of destination, and should be accompanied by a certificate that this is the place whence he came, and by a statement showing whether he is prepared to embark by the first available opportunity. Application for passage should not be made too long in advance.

First class accommodation will be provided in all cases except as stated in paragraph 3, or where a lower class has been agreed upon at the commencement of the individual's employment.

2. The right to such passage must be exercised within six months of the date of retirement, demobilization, or completion of contract, except for reasons of ill health, when passage may be deferred until the officer is medically fit to embark.

3. (a) Those whose services are terminated on account of mis-conduct, and (b) those who voluntarily resign their commissions before the end of the war, will forfeit right to return passage. Exceptional cases will, however, be considered by the War Office when, if granted, passages under (a) will be second class, and under (b) first class.

4. This concession will apply only to officers other than those granted honorary commissions only, who have been employed or re-employed for the period of the war, the intention being to send back those who have left their homes to give temporary service during the present emergency.

1932. Cases have arisen in which officers, entitled under A. C. I. 902 of 1916 to return passage at the public expense to the place whence they came, have made their own arrangements and then applied to the War Office for the issue of a money allowance in lieu. It is notified for general information that applications for return passage must be made in writing to the Secretary, War Office, and that officers making private arrangements do so at their own risk, and are liable to forfeit right to claim any refund of amount of cost.

961. Postal.—The instructions to be carried out in order to afford the postal authorities facility in dealing with letters for individuals returned invalided from the overseas forces are published for information and guidance.

To enable the Postal officials to take steps for the redirection of undelivered letters, units will carry out the instructions enumerated below.

1. *Officers Commanding Military Hospitals, Convalescent and other camps, and Officers Commanding Depôts.*—Will send

to the Presidency Postmaster, Bombay, and to Officers Commanding Depôts concerned, a *daily list* giving the marginally

1. Name and Initials. noted particulars of all British Officers and rank and file from Overseas
2. Rank No
3. Regiment or Unit. Expeditionary Forces who are admitted to, or discharged from, the Hospital or Convalescent Camp or Depôt, and will warn invalided officers when proceeding on leave on medical certificate to notify personally the Presidency Postmaster, Bombay. of their future address.

2. Officers Commanding Depôts in India of British Units, on service with Expeditionary Forces, will send to the Presidency Postmaster, Bombay, a *weekly list* of all officers and rank and file shewing the admissions to, and discharges from, the Depôt.

3. *Embarkation Commandants, Bombay and Karachi.*—Will send to the Postmaster General, Bombay, and to the Officers Commanding Depôts concerned, complete lists of all British Officers and rank and file who arrive in India from the Overseas Expeditionary Forces

4. It is essential that these instructions which have already been issued by letter should be carried out by all concerned with precision and promptitude

5. Every endeavour should be made to secure—

- (a) that the whereabouts of all soldiers who are, or have been, at depôts or hospitals in India or Mesopotamia, shall be easily ascertainable from card indexes or otherwise ;
- (b) that letters for inmates of depôts and hospitals shall be distributed within 24 hours of delivery there ;
- (c) that no other letters be detained in any hospital or depôt for more than three days except under special orders of the Officer Commanding ;
- (d) that any letters detained in large numbers in any hospital or depôt be kept for easy reference in alphabetical pigeon holes.

962. Followers —It has been brought to notice that officers who enrol followers for service in the field overseas do not always observe the procedure laid down in Field Service

Mannual, Supply and Transport Corps, paragraph 15, with regard to the allotment of serial departmental or corps numbers and abbreviated name of stations of selection or engagement. This is causing great difficulty in the office of the Field Controller of Military Accounts in dealing with the correspondence and accounts of those followers sent as reinforcements overseas. As the field accounts of such followers are maintained in the office of the Field Controller of Military Accounts by Divisions, from which the men proceeded on field service, irrespective of the units to which attached, it is most essential that distinguishing letters, with numbers, should invariably be assigned to them, thus:—

$\frac{117}{\text{Cal.}}$ $\frac{171}{\text{Cawn.}}$ $\frac{149}{\text{Bom.}}$ $\frac{610}{\text{Mhow}}$ and so on.

2. In the case of men enrolled for field service by the Followers Central Depôts at Meerut and Ahmednagar, the abbreviated designations of the localities should be "Mt.C.D." or "An.C.D." thus:—

$\frac{121}{\text{Mt. C. D.}}$ $\frac{122}{\text{An. C. D.}}$

3. It is most important that one set of serial numbers should be maintained for all men sent from one station from the beginning to the end, and not fresh sets of serial numbers started for each batch of men sent.

4. An extract from the Long Roll (India Army Form K-1151), showing each man's general field number ^{and} distinguishing letter, referring to his station of enrolment, name, date of engagement, monthly pay, and advance given and date of leaving station (for purposes of batta) should be sent to the Field Divisional Disbursing Officer concerned, for all followers sent on field service. A separate extract should be prepared for men sent to Force "D," "A," or "E." The rolls for men pertaining to Force "D" should be sent to the Divisional Disbursing Officer "Staff," Indian Expeditionary Force "D," Poona and those for Forces "A" or "E" to the Divisional Disbursing Officer, Indian Expeditionary Force "A" and "E," Poona.

5. Care should also be taken to quote the distinguishing letters together with numbers of men in their pay books, to enable officers in the field to quote these in correspondence affecting the men, thus facilitating the tracing of names and disposal of correspondence in the Field Controller's and other offices.

963 Pensions—Officers—It is notified for information that officers of the Indian Army Reserve of Officers are not eligible to subscribe to the Indian Military Service Family Pension Fund or the Indian Military Widows' and Orphans' Fund

964 Books—Regulations—It is notified for information that the Government of India have approved of the publication of Field Service Manual, Surveys, India, 1916

2. Copies will be supplied free to all concerned by the Superintendent, Government Printing, India, Calcutta, with whom copies will also be placed for disposal by sale

965. Medical Manual (War), India—*Correction*—Appendix III, "Hospital Train" is cancelled

966 Forms—The following correction is made to I.A.F. 7-2001, page 42—

(In continuation of India Army Order 938, dated 18th December 1916)

For the present designations in column 3 against the under-mentioned forms substitute—

ARMY COUNCIL INSTRUCTION.

No. 1977 of 1916.

WAR OFFICE,

17th October 1916.

1977. Position of Artificers on being posted to other units.

As some uncertainty appears to exist regarding the position of soldiers holding artificers appointments, who become supernumerary to establishment owing to wounds, sickness, or other causes, it is notified that a soldier, who has once been graded as an artificer, retains his appointment and continues in receipt of the pay thereof under any circumstances unless deprived of his appointment for misconduct or inefficiency.

Care should be taken that artificers are only posted to other units or drafted to Expeditionary Forces to fill vacancies for such, and arrangements made to absorb any supernumeraries in the establishment of artificers at the earliest possible opportunity.

This instruction does not apply to soldiers holding acting appointments carrying additional pay (*e. g.*, under Art. 905 or 906, Pay Warrant); and where establishments are filled with acting rank a soldier holding an artificer appointment while in possession of such rank will, on reverting to his substantive rank, take up the corresponding artificer appointment, *e.g.*, an acting corporal shoeing smith will on reverting

to his substantive rank take up the appointment and pay of shoeing smith.

30-Cavalry-514 (F. 6).
